JUNIOR Kyle Toweson's mom runs through the hoop while enacting the lives of the coaches and football players during the town pep rally. Throughout the year, students, parents, and teachers worked to get it together.

TOGETHER

WE GOT IT . . .

AFTER SUMMER WINDS DOWN AND THE SCHOOL YEAR CREEPS UP, STUDENTS LINGER BACK TO GRIFFITH HIGH SCHOOL FOR ANOTHER 36 WEEKS TOGETHER. ON THE

first day of school, MANY PROBLEMS OCCUR, SUCH AS JAMMED LOCKERS, LOST SCHEDULES, AND MISSING BOOKS. AS THE YEAR PROGRESSES, STUDENTS GROW ACCUSTOMED TO THE HECTIC AND STRESSFUL LIFE OF ATTENDING HIGH SCHOOL.

AFTER THE FIRST FEW WEEKS OF SCHOOL, THE STUDENTS OF GRIFFITH FORMED CLUBS TO PARTICIPATE IN EXTRACURRICULAR ACTIVITIES. THE

BOOSTER CLUB, SWEATERGIRLS, PANTHERETTES, AND CHEERLEADERS JOINED TOGETHER TO ORGANIZE PEPRALLIES, LOCKER BUDDIES, AND OTHER SCHOOL

OPENING

WE GOT IT IN . . .

STUDENTS' LIVES DON'T EXIST ONLY IN THE CLASSROOM. MANY OTHER ACTIVITIES ARE THINGS SUCH AS HOMECOMING, TURNABOUT, PROM, PLAYS, AND VICTORY DANCES WHICH ARE SCHOOL RELATED EVENTS DONE OUTSIDE OF SCHOOL. OTHER THINGS ARE EVENTS DONE ON THE STUDENT'S OWN TIME AND FREE WILL.

THE 1991-92 SCHOOL YEAR BROUGHT MANY DIFFERENT MEMORIES. ONE IS THAT OF A WHITE COW FROM THE GRIFFITH MINIATURE GOLF COURSE, PAINTED BLACK, AND PLACED ON THE FOOTBALL FIELD IN THE MIDDLE OF THE NIGHT IN ORDER TO BOOST THAT GRIFFITH SPIRIT.

IN ALL ACTIVITIES STUDENTS OF GHS HAVE GOT IT . . . TOGETHER.

Student Life

Left: Placed on the field as a prank after activities night was the fake cow. Right: Senior Don Wasserman leads the team through the giant bone during the town pep rally. Various groups worked together in order to make the pep rally spirited for the team.

fashion show

sewers strut their stuff

Fashions have undergone many changes. From maxi to mini, high class to every day wear, and mix and match to solids.

Once patterns are selected, stylists and manufacturers go to work.

Sewing students showed off their talents during the spring show.

Fashions varied from pajamas to elegant evening gowns.

Sewing teacher Mrs. Margie Keithley was in charge of the fashion show. It was held on May 21 in the cafeteria. The clothes that were modeled were made by Mrs. Keithley's first and second hour classes.

Senior Angie Skaggs said, "About nine of us made shorts that glow in the dark, to model off in the show."

Senior Allison Kundrot said, "I usually lose everything, but that's ok because I'm a ditz. I also

"About nine of us made shorts, that glow in the dark, to model in the show," said Angie Skaggs.

wish that I could have taken more sewing classes, but my schedule couldn't be rearranged."

Sewing can be frustrating sometimes. Sophomore Jessica Redar said, "I was trying to make a shirt, but I just couldn't figure out the pattern; it was hopeless."

Sophomore Melissa Whitfield said, "I enjoyed being in the class. I was able to meet new people and the fashion show topped off the end of the year."

In the Evening and Bridal section of the fashion show, girls were escorted by seniors Don

Wassermann, Don Higgins, Jim Bogner, Mike Hernandez, Mike Serratore and juniors Jason Matthews and Matt Moore.

Senior Jen Romano won the Outstanding Effort and Workmanship Award. Other sewing students won money and sewing supplies at the fashion show for the clothes they had made. Among these, seniors Sherry Bragg, Allison Kundrot, Pat Vrehas, and Tammy Stone; junior Sarah Furman and sophomores Marilyn Bragg and Melissa Whitfield won awards.

Mrs. Keithley said, "I was very pleased that the girls did a great job, and I'm glad the public was able to see their work."

students show their spirit

Any outsider walking through the halls from October 7th to the 11th would think they entered the Twilight Zone. Students were dressed as cows, Batman, and other outrageous costumes. "It was really exciting seeing everyone participating in spirit week. It was cool how everyone had different costumes," said junior Becky Chandler.

On the other days, students as well as teachers, clashed, dressed up, and wore their clothes inside out and backwards. "Activities Night was a great way to show school spirit

"The seniors have to win spirit week; it's tradition," said senior Cindy Knezevich.

and it gave everyone a chance to become involved," said senior Jennifer King.

Not only did students dress up, they also participated in activities night. Senior Bryan Galocy said, "I had a lot of fun being in the human pyramid and I'm glad the seniors killed the rest of the competition in that event." The balloon toss,

powderpuff football, and the tug of war were some of the other events.

Special activities were planned just for the Homecoming court. "I thought they should have had the pie eating contest," stated Russ Dewes.

Overall, the seniors took first for spirit week, followed by the juniors in second, and the sophomores in third.

"I think the students showed real enthusiasm and the program turned out to be its usual success," said Mr. Birk.

homecoming griffith style

What made Homecoming so special? Was it the crowning of the king and queen, the parade, the victory dance, or the game itself?

Senior Denise Castillo said, "Homecoming was so much fun because I was involved in Activities Night, the parade, and court, but the most exciting part was standing on the football field waiting to hear who would be crowned."

"It was cool how the people in the stands were screaming, yelling, and going crazy while the court was on the field," said senior Donnie Higgins.

Homecoming gave students a chance to get involved. "I had a good time decorating the

"The dance was a lot of fun because everyone was hyper from winning," said Jenny McKnight.

Sweater Girls' truck and riding in it during the parade," said junior Rachel Carden.

"I thought the parade was very organized. Beating Highland was cool, but it wasn't very exciting," said senior Steve Mitchuson.

"I felt more involved as a junior than I did as a

sophomore," said junior LoraLee Kilgore.

Other students felt the dance was the best part of the night.

"I thought the dance was cool because we already knew we won, all the work was done and we could relax and have a good time," said senior Jen Romano.

Senior Kevin Kozuch said, "I was pleased to see that everyone in Student Council worked hard and Homecoming went well."

TOP

Reasons to be on Homecoming Court.....

- ✓ To be wrapped in toilet paper
- ✓ To freeze in a formal dress on the football field
- ✓ To ride around the track in a nice convertible
- ✓ To wear a fake smile for fifteen minutes.
- ✓ To get more pictures in the yearbook
- ✓ To sit on whipped cream balloons
- ✓ To hear your achievements announced during halftime
- ✓ To be God's gift to women
- ✓ To boost your ego
- ✓ To feel wanted and admired

Jen Romano holds the letters for the senior class.

Senior Eric Schreiber charged through the hoop before the game.

The senior float, Break on Through, won second place at the parade.

Homecoming court: Rick Burks, Adrienne Bogelski, Don Higgins, Queen Tricia Royle, King Neil Miklusak, Denise Castillo, Russ Dewes, Korey Hrdina, and Don Wasserman.

Many students attend the Chili Supper before the game.

fundraisers

making a profit

Why do clubs participate in fundraisers? Are they actually fun? DECA sponsor Richard Reymo said, "Fundraisers are a necessary evil. I don't know anyone who likes them, but an organization needs fundraisers to function." Selling Sweet-O-Grams, candy, calendars, ice scrapers, and picture frames were some ways DECA earned money. Most of the money DECA made went to pay for the students expenses during the state competition in Indianapolis. DECA also sponsored a Lap-a-thon to raise money for the Muscular Dystrophy Association.

The Pantherettes and cheerleaders had elementary camps to raise money. For one week students from Griffith elementary schools came

"The fundraisers can be fun, but they usually are a pain," said senior Jeff O'Brien

to the high school to practice. The Pantherettes taught the children a dance routine and the cheerleaders taught them cheers.

"Even though it was hard teaching the little girls moves like the running man, it was fun," said sophomore Alicia Kristufek.

Pantherette sponsor Martha Davis said, "Out of the three camps, this years was the best. It was organized and the

campers were well behaved. All of the Pantherettes did a great job getting the girls on and off the gym floor and performing with them."

Junior cheerleader LeeAnn Riese said, "I felt our camp should have been more organized, but I still had a good time working with the little girls."

Mrs. Keithley's sewing classes had a different approach to raise money; they raffled off a car phone. Proceeds went to purchase awards for the fashion show and towards a thousand dollar sewing scholarship. Mrs. Keithley said, "I give the scholarship to recognize outstanding sewing students and help them pay for college."

The bone, built by juniors Shelli Linders and Sarah Krooswyk was for the players to run through.

The 1991 football season at GHS had many firsts. The football team accomplished the title of regional champs for the first time. If that's not enough excitement for you, take a look at crowd support and involvement. Over 4,000 fans showed up at the game for starters. A night pep rally was held. Upon entering the varsity lobby, fans were greeted with bones, cups and markers. Markers? Yes, each fan was to sign their name on sheets hanging on the wall. Lights dimmed in the gym, and excitement mounted. "Bad to the Bone" was blasted over the sound system. A lone spotlight illuminated the gym where each player came into sight. Cheerleaders and pantherettes performed together to "Jungle Jam" and moms cheered. Cheers were

— “ The best thing about the bone is that it boosted everyone's spirit,” said junior Shelli Linders.

made up by Mrs. Gall, and a dance was choreographed by pantherette moms. "Bone" heads walked around with wonderful thoughts of winning, and the players frantically searched for the bone. The loyal painted windows downtown, hung black and gold paraphernalia everywhere, and even posted signs in their front yards. Senior Scott and sophomore Chad Sutton know what this is all about. Chad said, "It's a

yearly project that started when my brother was a junior, it's become a family project. At the pep rally I never expected to see that many people turn out to support us, it was great!" Scott said. "Winning the regional at GHS is one thing I'll never forget." One memory for many will be the "BONE" that Shelli Linders and Sarah Krooswyk constructed. A fifteen foot replica of a wishbone that the players ran through was a highlight for all. Linders said, "The best part of building the bone was getting to play with all the ooze. It showed the team that we were behind them one-hundred percent. The bone symbolized our school and what we stood for."

After football season ends, whether it's high school, college, or pro, some students start to focus on basketball.

Sporting goods stores go along with this idea also. Varsity shop owners said, "We start stocking basketball equipment two months before the regular season starts."

Senior Jamie Dutcher said, "After the Bears' and 49'ers' seasons are over I begin to switch to the Bulls."

Colleges begin to prepare. The season begins with practice in October followed by games in November.

Senior Mike Toth said, "I follow the season from

"I look forward to March Madness," said senior Rob Wlazlo.

start to end, the whole concept of the games are exciting on the collegiate level."

The Final Four consisted of Duke, Indiana, Michigan and Cincinnati. Senior Scott Leslie said, "Go Big 10! Michigan all the way!"

"Duke, need I say more?", said senior Ed Halajcsik.

Needless to say, Indiana fans reacted differently. Journalism teacher and IU graduate Miss Julie Marcinek was

"speechless". After watching the Indiana-Duke game she lost her voice cheering on the Hoosiers.

First ranked Duke dominated the courts throughout the season. Senior Steve Mitchuson said, "I knew Duke was going to win all along, I just didn't know by how much."

All loyal fans don't give up; there's still next year. Senior Bruce Weyhe said, "Don't worry, Michigan will be back next year because they're young. Indiana will be back and win it all next year."

Dahmer: The *Ruthless Embalmer*

Serial killer Jeffery Dahmer was born in Milwaukee, Wisconsin in 1960. As a child he was considered a loner and a poor student.

After graduation he attended Ohio State University for a few months, he dropped out and enlisted in the Army in December 1978. By 1981 he was given an early discharge for heavy drinking.

In 1985 Dahmer was employed by the Ambrosia Chocolate Company as a stock clerk. He was known as a quiet, mild-mannered man. On July 22, 1991 Milwaukee police officers, Robert Rauth and Rolf Mueller, saw Tracy Edwards running toward their police car with handcuffs hanging from his wrist. He pointed to the Oxford Apartments and said the man in 213 had a big knife under his bed and was trying to kill him. When the police went inside Dahmer's apartment they found photographs of mutilated bodies. Among these there was a photo of a sculpture Dahmer had made from an unidentified, decaying head resting on a pair of severed hands. Police discovered three heads in Dahmer's freezer, five skulls scraped clean and stored in a filing cabinet; two more heads were also found stashed on a closet shelf.

Dahmer confessed to the murders of 11 men and later confessed to six others that date back to 1978. Dahmer detailed the gruesome dismemberments that took place at his neat, one-bedroom apartment in Milwaukee or at his grandmother's house in a nearby suburb. His victims tended to be black homosexuals. While some of his victims were unconscious, Dahmer tried performing lobotomies, drilling holes in their heads in order to put a chemical in their brains. He said he was trying to create zombies under his complete control. After his attempts failed he killed them, threw out the flesh with the trash and either smashed the bones with a sledgehammer or soaked them in acid until they became mush.

Dahmer was found sane by a 10 to 2 jury verdict in Milwaukee. He was sentenced to 15 terms of life imprisonment since Milwaukee does not have the death penalty.

DRINKING AND DRIVING DON'T MIX

Michael A. Flores, a 28-year-old man was drunk when he drove his car into the back of a van carrying four Hanover Central High School girls and two of their mothers. Flores, a Schererville resident, was sentenced to 36 years in prison and will not be eligible for parole for 18 years. A jury in March 1992 found Flores guilty of seven counts each of causing death with a motor vehicle and reckless homicide while intoxicated.

Lake Superior Court Magistrate T. Edwards Page judged Flores could not be found guilty on charges for each person killed. He sentenced Flores to six years for his fiancee's death on a charge of causing death by a motor vehicle while intoxicated. Flores was also sentenced to 5 years each for the deaths of 6 others in the van he hit.

Survivors of family members killed in the crash asked to court to sentence Flores for a long stretch of time, a few asked for the maximum sentence. The families suggested that Flores be made an example for other drunk drivers.

Bombings set off fears in NW Indiana

Bombs kill one woman; chemical bomb in school

At 7:55, on January 13, many students and faculty of the Griffith High School were alarmed to hear a big boom coming from the downstairs boys' bathroom. The explosion was caused by explosive chemicals in a two-liter plastic pop bottle, set off by a 17 year-old male from the junior class. It was set as a prank; fortunately, no one was hurt and no damage was done.

In addition to this bombing, there was a series of them in the area. Five explosions hit from December 23 in the Robertsdale area of Hammond to January 12 in the Woodmar neighborhood of Hammond. Others occurred in Highland and Hammond. The first killed 65 year old Hammond resident Emily Antkowicz.

It is believed the bombings were part of a robbery plan to distract police to the sites of the bombings, thus enabling area businesses to be robbed more easily. Suspects are awaiting trial at the close of this school year.

Seatbelt Slip Up

On Saturday, January 12, 1992, Sally Jesse Raphael, daytime talk show host, was told her son had been rushed to Westchester Medical Center in Valhalla, New York. Her 19-year-old adopted son, J.J., had crashed into a tree and tumbled down a ravine near the family's home in Montrose. It took a rescue crew 45 minutes to cut through the wreck and remove J.J. and two friends from the car. Although they were wearing seatbelts, all three were seriously injured. J.J. underwent a seven hour surgery to put a pin in his broken leg and to wire his broken jaw. He also suffered broken ribs and his face needed 56 stitches. He was in a coma for more than six days.

He regained consciousness while squeezing his mother's hand on January 18. He suffered no internal injuries or neurological damage, and would take up to a year for him to return to good health.

Raphael stayed at her son's bedside 10 to 12 hours every day. During her son's trauma, Raphael missed only one taping of her talk show. After 35 years in the business and being fired 18 times, Raphael, who is in her late fifties, now makes more than 1 million a year.

Commissioner Dud Causes Chicago Flood

Disaster hit Chicago, Illinois Monday, April 13, 1992. The Chicago River went crashing through a concrete wall in the tunnel beneath the river causing a flood in the downtown Loop area. Thousands of office workers were forced to evacuate the buildings, inmates were confined to their cells at a federal prison in the area, and police increased downtown patrol by 100 officers.

Commonwealth Edison shut off the power about noon from the Chicago River on the north to Calhoun Place, on the south, and from Franklin to LaSalle streets. Power was also cut from part the south branch of the river to Canal street and from Lake to Van Buren. About 200 buildings in the Loop were affected. The Chicago Chamber of Commerce estimated the economic losses to city workers and businesses at \$200 million.

John LaPlante, the acting Transportation Commissioner, was blamed for the disaster. The problem was brought to his attention early in February, but failed to act soon enough. In January, workers for a Chicago Cable Television Company videotaped a crack in the tunnel 20 feet long, with a worker trying to get through the knee-deep mud in the tunnel and part of a caved-in wall. While LaPlante's department was getting bids from contractors, the crack became a 24 foot hole and flooded the underground freight system, causing chaos to the city's business community.

Mayor Daley requested and received John LaPlante's resignation on April 15.

By mid-afternoon Tuesday, April 15, Commonwealth Edison had restored power to most of the building and the Loop almost returned to normal business activity.

PALM BEACH PASSION BLUNDER

William Kennedy Smith, 30 year old nephew of Senator Ted Kennedy, was charged with rape. Reports of the incident became public on April 1.

Patricia Bowman, a 29 old woman, was at the Au Bar night Club on Good Friday Evening, 1991. She had met Smith, Senator Kennedy, 59 years old, and his son Patrick, a 23 year old Rhode Island State Senator. About 3:30 a.m., Bowman was invited to the Kennedy's beach, Florida. She claimed she was raped there about 4 a.m. She was treated for minor injuries at Humana Hospital and then released.

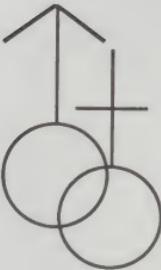

Smith, a 1983 graduate of Duke University, worked briefly as an investment banker before entering Georgetown University Medical School.

Smith and both Kennedy's denied any involvement in the incident. Mark Merkin, who was Smith's roommate at Duke, defended him. Senator Kennedy said he had no idea who the alleged victim was. He later stated that even though Smith was a suspect, that didn't mean he was guilty.

Willie Smith was acquitted on the rape charges. Rape is a tough charge to prove beyond a reasonable doubt, and Smith and his lawyer succeeded in establishing reasonable doubt. The testimony of three women who say Smith attacked them sexually in the past was thrown out by the judge. Even though Smith's testimony of the events that night are shaky.

Dirty Talk

Anita F. Hill, University of Oklahoma law professor, made sexual harassment charges against Supreme Court justice-designate Clarence Thomas.

Thomas, a Yale Law School graduate, employed Anita Hill as his personal secretary in the 1980's. When Thomas went from one job to another, Hill followed him. She did not make her accusations public until years after Thomas allegedly sexually harassed her.

The courts define sexual harassment as the creation of a hostile work environment that demeans or demoralizes someone on the basis of gender. Evidence and testimony to Thomas' integrity was insufficient. The guilt of the accused was not proved because of the lack of reasonable doubt. Jurors sided with Thomas; Hill lost the case.

Even though the Judiciary Committee delayed their decision during the hearings, Thomas was still voted onto the Supreme Court.

Chaos in Russia

Russian Republic president Boris Yeltsin, once a liberator, became a bossy dictator after winning the Soviet coup in late August. Yeltsin told supporters that he might bring back an old symbol of imperial Russian power: the two-headed eagle that used to appear on the czarist flag. He seemed ready to remake the union in Russia's image. One week later, his wishes came true. In the first week of September, the Soviet Union was in a dangerous state of crackup. The Soviet Union had become weak and so chaotic that it was in desperate need of a strong leader. Many foreign nations had already recognized Estonia, Latvia, and Lithuania as independent countries. Since the other republics could not stand alone, they all came together to form one whole, new nation.

Since Russia was the largest state by far in the Soviet Union, it became the head of the new Soviet Commonwealth, with Boris Yeltsin as the leader. Yeltsin said that he wants all of the states to be equal and to practice self-government. He also negotiated interim economic and military pacts with the Ukraine and Kazakhstan. Along with Communism, former head of the Soviet Union, Mikhail Gorbachev, was also removed.

Honestly friends, fun, & frills

What things came to mind when Turnabout was mentioned? Junior Regina Steapleton said, "Having fun with your friends, people being dressed up, nervousness mixed with excitement, and special memories with your boyfriend."

After figuring out who to ask, there's much more to take into consideration. Senior Denise DeBoer said, "I was concerned about buying a dress, what color should it be, what kind of jewelry would look good, and how should I wear my hair."

Junior Alan Sutkowski said, "I didn't

"Despite the lousy DJ, I still had a lot of fun," said junior Jim Dwyer.

have to worry about how I wore my hair, but I did have to pick out a suit and tie and order flowers."

Turnabout was held at the St. George Greek Orthodox Hall in Schererville on February 8. In past years many students preferred DJ's over bands, but this year it was different. Sophomores Lisa Shoulders and Melissa Whitfield said, "Except for playing two songs twice, the

music was o.k."

Others disagreed. Senior Mike Moore said, "I didn't like the DJ."

"The only reason I had fun at the dance was because I had a great date, but I had a better time after the dance because a group of rented a limo for the night," said senior Roger Helfen.

The Turnabout court was Jamie Bell, Natalie Bogielski, Bethany Minnix, Johana Nahod, Gavin Reyme, Brian Hopper, Brian Rodell, John Smith, and Chad Sutton. The 1992 Prince and Princess were John Smith and Bethany Minnix.

By Diana Davis and LeeAnn Riese

Senior Denise DeBoer and her date, junior Alan Sutkowski, both get a cup of punch from the punch fountain.

Junior Paige Jacoby congratulates her boyfriend, sophomore John Smith, in being crowned Prince.

FEN

Reasons why students disliked Turnabout

- ✓ DJ was rude
- ✓ Requested songs weren't played

Junior LeeAnn Riese videotaped her friends, senior Ed Halajesik and junior Regina Steapleton at Turnabout.

Turnabout Court : Jamie Bell, Brian Hopper, Natalie Bogielski, Gavin Reyme, Bethany Minnix, Brian Rodell, Johanna Nahod, John Smith, Natalie Pastar, and Chad Sutton.

Lock-In

more than just food

During each school year, February has brought many activities. One of them was the SADD lock-in. Students against drunk driving has organized the lock-in for the last four years. With weeks of planning, everything fell into place on February 13.

S.A.D.D. Vice-President Diana Davis said, "It was hard trying to find places to donate food, but getting it to the school was difficult. I had to drive with a six foot sub sandwich sticking out of my car window."

Upon arriving with a canned good for the Griffith Emergency Fund, a person's name

"There was a lot of planning that went into the lock-in, but it was worth it," said junior Ruthii Marvel

was checked off of the sign up sheet. Then everyone assembled in the auditorium to hear the band Hollow Point, who played a variety of songs. The Lake County Coroner showed slides of drinking and driving accidents and its victims.

Many activities were planned, everything from swimming to dancing. Some people played volleyball, basketball, or even slept in the field-house. S.A.D.D. President Jill Littlefield said, "The DJ's were

totally cool and played what the students requested. There was plenty of food and we were able to play whatever games we wanted without having to fight a crowd."

Students who chose to take a permission slip and not show up, took a chance of getting caught, getting grounded, or even worse, having their parents come looking for them. "I really was planning on showing up to the lock-in, but I couldn't quite get there on time, I got a little side tracked," said junior Jenny Redar.

Student Council arranged the bulletin board to announce events in February such as the lock-in and Turnabout.

spring break rain, rain, go away

Spring fever (n) The feelings of languor, rejuvenation, or yearning that may affect people at the advent of spring. This was not the case for some during Griffith's spring break, April 10-21.

Easter Sunday was a time for family get togethers, food, egg coloring, food, church, candy, egg hunts, and food.

School activities were cancelled on account of the rain. Baseball games were rescheduled, track practices were delayed, and softball practices were held inside.

Junior Danielle Dudek said, "Spring break this year was actually pretty boring

"I worked almost every night, but I managed to go to a Sox game," said junior Angie Matson.

because of the weather. Most of the games were cancelled and outdoor activities were eliminated from the agenda. Really it seemed like a long weekend giving you time to rest and spend time with friends."

Besides all the fun, work was included. Going to work for the first time was the case for some.

Junior Angie Matson was hired at the Dairy Queen in Highland. She said, "I worked almost every night, but I managed to take time out

for a Sox game. There were a few parties, but over all it was boring."

Some still managed to have time for friends and fun. Junior Jennifer Kuck said, "Over all spring break was ok. I mostly had softball games or practices. The weather was lousy, but there were a few good parties!! The worst thing was it went by so fast."

Senior Barrett Starks said, "I enjoy spending times with my friends and just hanging around. Baseball was also something to do that I really enjoy."

prom night

people, places, pictures

What do tanning beds, hair appointments, money, and excitement all have in common? Prom.

Prom was held at the Saints Constantine and Helen Hall on May 1, 1992 in Merrillville. The color theme included teal, fuchsia, royal purple, and pearl. The theme song was "Set the Night to Music." The song was "I'll never let you go," by Steelheart.

Court included, Queen Paige Jacoby, King Nate Miklusak, Mindy Davis, Angie Matson, Shellie Linders, Terri Letts, Ryan Hoover, Alan Sutkowski, Ron Govert, and Scott Sherry.

Junior Whitney Escalante said, "I felt 'Set the Night to Music' was the wrong theme because all the music they played was old, but over all I had a good time."

I was very honored to be nominated on Prom Court," said junior Mindy Davis.

Junior Teresa Ewen said, "Prom was the start of one of the most memorable weekends of my life, but many parts could have been better."

Many Prom-goers felt the high point of the night was the food and the excellent service. Most said Prom was better than Turnabout, a few ways were suggested on how to have a great time at Prom. Junior Jerry Farrar said, "Make sure you and your date are compatible, otherwise forget it!" Some also had comments for the hall. Senior Rick Jerome said, "It was way too hot."

Senior Denise Castillo said, "I think that it was the most fun prom because it was my last and I made it the best I could. Actually it was one big picture taking time, because we all want to remember everyone as they are, since we all won't see each other as much after this year."

Junior Mindy Davis said, "I had more fun this year at prom. The dance floor was big enough to actually dance on. I was also honored to be nominated to court."

Junior Paige Jacoby said, "I had a lot of fun afterwards because I was with all of my friends and away from my parents."

Seniors Tiffany Saczawa and Mike Hernandez search for their prom ticket to get into the hall.

Senior LeeAnna Barber and her date take their picture number from Mr. Carstenen.

B Sick days

B Sleeping in class

B Skip class to go to the beach

B Extended Lunch

B Doodling
B Incomplete work
B Going to the Nurse
B Half-Days

Spring usually brings hay fever, sinus colds, wheezing, coughing, and much more. A strange epidemic broke out among the senior class. Some called it boredom others claimed to be suffering from Senioritis. Symptoms include sleeping in, long stares out the window during class lectures, many "sick days" and the list goes on and on. Some students spoke out.

Senior Jim Bogner said, "Senioritis is like AIDS, once you have it you can't get rid of it. I find myself spending more time at home than at school. I've missed more days my senior year than I have in three years. It's a really

"Senioritis is like AIDS, once you have it you can't get rid of it," said senior Jim Bogner.

beautiful experience."

Senior Gina Vittorio said, "It all started at the beginning of the year. I've missed more days this year and I really don't care about my grades. I just want to pass and get out of here."

Senior Kim Fulker-son said, "You get so desperate you can't wait to get out. I don't want

to bring any books home or if I do I usually don't do my homework. Some try to think of all the classes they have to pass, and some blow off the rest."

Senior Pat Vrehas said, "For me, Senioritis started in the month of December. That's when I started to wake up at 7:15, take a shower and come to school with my hair wet. Really I'm burned out on high school life and can't wait for college life to begin."

Senior Roger Meeks finds out the disadvantages of day dreaming in class.

snet sleeves

translation:pet peeves

When you're sitting in class and the person behind you keeps sniffing due to the spring allergies, does it get on your nerves? Pet peeves come in many shapes and forms.

Junior Katie Mendez said, "I can't stand people when they see Phil and I together and automatically say, 'Get a room,' that bugs me so much!"

Senior Kim Fulkerson said, "The worst thing is when people smack their mouth when they chew gum when you're trying to concentrate on a test or quiz."

Junior Jennifer Kuck said, "I hate it when people talk about someone, then talk to them when they're around, like they've been friends all the time."

Senior Steve Mitchuson said, "My worst pet peeve is when I have to clean and dust the house."

Sophomore Dawn

"I hate when people smack their mouth when they chew gum," said senior Kim Fulkerson.

Negrite said, "I hate when people think that they're better than someone else because of the amount of money they have or the clothes they wear."

Senior Mike Serratore said, "My pet peeve is when people touch my arms because they tease me about how big they are."

"It bugs me when people don't return my phone calls, because I hate wasting my time sitting by the phone waiting for them to call me back," said junior Paul Mitchell.

Senior Mike Hernandez said, "I can't stand

when people touch my hair; I spend a lot of time in the morning trying to fix it so it goes the way I want it to."

Junior Tracy Reynolds said, "It annoys me when people borrow my clothes and don't return them at all, or return them months later. I just think that it is rude to do that to somebody."

Junior Brad Zabek said, "When certain individuals put a slur ring sound in front of every word like: Shli shldn't shlo shluting. Translation: 'I didn't do nothing.'

So the next time you think the person sniffing in your ear is annoying, remember: don't touch a person's arms, mess up their hair, borrow their clothes, or slur your words so you don't become an annoying person yourself.

Senior Becky Furman is guilty of a popular pet peeve by chewing with her mouth opened.

Senior Steve Mitchuson often annoyed the Reflector staff by playing with their cropper.

Juniors Jonna Gehring and Sean Tucker display their affection in the hall; this annoys some students.

Senior Jay Hackworth likes to annoy people by making noises with his armpits.

graduation

time to celebrate

When some think back to the first years of school, it seems so long ago. Seniors thought of friends, memorable times, and hardships they have overcome.

After studying for long tests, bearing days of boring lectures, and sleepless nights (because of "big" assignments forgotten), it finally came, the long awaited day, GRADUATION!

Commencement was on Friday June 5, 1992. Class colors were teal and silver, with the motto being, "It just doesn't get any better than us."

For some, that day meant freedom, sleeping late, no teachers, no more rules, and no homework.

"I was both excited and sad to leave high school behind and go away to college. High school is like a security

“ I can't wait to get out of here!” said senior Steve Melendez.

blanket, you can go there and be with friends who care and help you get through the ups and downs of life. But now I must start all over again, make new friends, meet new professors, and of course, learn more. It is hard to leave, but it was time for a change-time to move on to the next cycle of my life," said Salutatorian Denise Castillo.

For some seniors, missing friends, starting work or working full time, going to college, and responsibilities was on their minds.

Senior Jerry Murdock said, "I'm scared of leaving school and having to take up big responsibilities. I now have to go to college and prepare for what I'm going to be doing for the rest of my life."

Valedictorian Kevin Kozuch said, "I can't wait till graduation because all of the fun classes I took will be over. On the other hand, I'll be leaving three weeks after graduation for the Air Force Academy. I know I will miss high school and all of my friends."

The feeling of some seniors was reflected by the class song "It's so hard to say goodbye to yesterday."

english switch upsets underclassmen

Blending grammar, composition and literature as well as students from different academic levels will be the plan during the next school year. Some English elective classes will not be available, but rather some will be included within the curriculum of sophomore, junior or senior English.

For example, even though the compclasses aren't offered, comp will be taught as part of the new English classes.

The classes next year will be Senior, Junior, and Sophomore English. The electives available to students are Journalism, Speech, and Grammar.

Junior Leslie Biscan said, "There are not enough electives, therefore we will have to be put in classes that we

"It doesn't give us a variety," said Lorraine Barenie

don't like, and we will be bored."

Junior Rob Weldon said, "I think it is a scam just so the school can save a little bit of money."

Junior Lorraine Barenie said, "I don't like the whole situation. It does not give us enough variety since all of the English classes are combined."

English teacher Mrs. Patricks said, "I feel it

does not give a student a big overview, it cheats the student out of different kinds of English and literature that others were exposed to in the past."

"I think that we should be able to have the choice of what English classes we think are going to benefit us the most, instead of just being put into the regular classes again," said junior Linda Wilson.

Junior Kellie Adams said, "I think that putting the English classes together by grades was a good idea because all of the intellectual students will be with others on their own level."

English teachers Mrs. Patricks and Mrs. Smith discuss the advantages and disadvantages of combining the English classes.

Junior Jenny Riese asks Mr. Smith what changes were made in the English classes.

Junior Todd Zabek decides he doesn't like the new English classes, so he throws his English book away.

Junior Jenny Huss talks to Mrs. Surovek about what English class would be appropriate for her to take.

Junior Becky Dunney tries to work with Mrs. Howell to rearrange her schedule to accomodate the new English system.

why me? student slip-ups

The alarm goes off, you get ready for school, and the day starts off okay; but when you get to school you notice that there is a hole in your shorts, you sat in a big wad of gum, and all of your books spilled out all over the floor. What else could be more embarrassing than that?

Senior Jeff Taylor said, "When I was in Mr. M's class, in eighth grade, Mike Toth pulled down my shorts in front of the whole class. It was my most embarrassing moment in school."

Football Coach Les Thornton said, "One day after taking care of some business downtown, I went to look for my car and I could not locate it. I was on my way to report it to the police, and then I realized that I had driven my truck instead. I'm just glad nobody saw me looking

"My friends were waiting for me, and I walked through my screen door," junior Jackie Acosta

for my car."

Senior Adrienne Bogielski said, "One time when Eric and I were out, I went to ask him a question. Instead of calling him by his name, I accidentally called him someone else's name. I couldn't believe I did that. It was awful."

"My most embarrassing moment was when I was teaching class for a whole hour and to my surprise a student told me that my zipper had been down the whole hour," said Business Law teacher Richard Koval.

Junior Matt Moore said, "One time while

riding a three wheeler with a bunch of my friends, I hit a bump and went flying through the air in front of everybody. It was pretty embarrassing."

Senior Cindy Knezevich said, "I was working at Dairy Queen, when we couldn't get a sheet cake to fit through the drive-thru window. Needless to say, I had to take the cake outside; the drive-thru happened to be extremely busy that day. I didn't notice the puddle of water and I ran through it with the cake in my hand. I slipped, and almost did the splits. Thankfully, I managed to save the cake."

Be careful, embarrassing moments can happen anywhere at anytime.

A WALK INTO THE

Publication Zone

Uncovering the mystery of the J-room

The ruins were piled on the tables and along the floor. A humming and a blinking flash came out from a madden computer. Was this the Twilight Zone? No, it was just the Publication Zone.

Both Reflector and Panther Press had class in the J-room. Although they had class at separate times, the competition was still, for some, heated.

"I think we're very much in competition. Their photographers were inexperienced and wanted me to do their work; I didn't have the time," said Reflector Photographer Jill Littlefield.

Even without competition, both Panther Press and Reflector had their own problems. "It was really hard when you had to get three stories in by

Friday. And was also hard to do the senior pictures," said Reflector People Editor Paige Jacoby.

"The hardest part for me was concentration; I couldn't work in the J-room," said Reflector Student Life Editor Diana Davis.

Concentration could be a problem in a room cluttered with papers, books, a distracting bulletin board and a crazed computer.

“

The hardest part for me was concentration; I couldn't work in the J-room," said Diana Davis.

"The bulletin board was a montage of photos, useful information, and insults (not in that order)," said Press Copy Editor Chris Fisher.

"The computers went bananas. Diana seemed persistent to destroy everything (especially the computers). It's her magnetic personality," said Reflector Organization Editor Jim Dwyer.

In fact, Diana's magnetic personality was well known by everyone. "One of my jobs was to keep Diana off the computers," said Editor-in-chief Tomisha Joseph.

So, as the ruins are put away for the year and reality comes back into the Publication Zone; what made this year so great? "Freedom! Being able to do your own work when you want as long as it's on time. And being able to relax and have fun with each other," said Press Managing Editor Danielle Dudek.

-Ruthie Marvel-

While working on a deadline, the Reflector staff help each other with story ideas.

Panther Press watches as Copy Editor Chris Fisher types her story on the computer.

Chief Photographer Jill Littlefield rinses off her film before printing it.

Reflector Staff: 1st row: Jill Littlefield, Dedra Rutherford, Tomisha Joseph, 2nd row: Miss Marcinek, Amy Hruskoc, Ruthii Marvel, Diana Davis, 3rd row: Paige Jacoby, Jim Dwyer, LeeAnn Riese

Panther Press: 1st row: Larry Atkins, Allison Kundrot, Chris Fisher, Danielle Dudek, 2nd row: Miss Marcinek, Rob Wlazlo Steve Mitchuson, 3rd row: Dan Pastar, Russ Dewes, Tony McCabe, Roger Helfen

COMPETING WITH THE

Best of the Best

Learning Along With Accomplishment

Tick. Tick. Tick. Tick. The seconds are counted down- 15, 14, 13, 12, 11..... The pressure is on. The team pushes to get the goal. The goal isn't for football or for any other sport; it's for the academic teams. The goal to be the best.

There five different divisions of the academic teams: English, Social Studies, Science, Math and Fine Arts. Each team works on learning people and facts that are related to the subject of the group that they are in. Junior Kim Woodall said, "We would get together a couple days a week after school to study and practice things we needed to learn."

The academic teams compete in regionals and

then they may go on to state, if they win, like the English teams did.

At the competition each team has three people to help solve the questions. After they are given the question they have fifteen seconds to answer it. Then the judge will look at their answer, if it's right then he'll

leave it but if it's wrong he'll mark it out. Junior Chris Wilcox said, "I like the academic competitions. It was really great to be able to go down to state and compete there."

There were a lot of things the academic teams learned during the year. Junior Jenna Lehman said, "I learned a lot of different things about artists and musicians that I never knew before."

Chris Wilcox said, "I learned about famous figures; but I also learned about the sense of accomplishment."

The buzzer rings. Time is up. But not for the academic teams. Through hard work and dedication they have gained knowledge of facts, team work, and pride.

Junior Jenna Lehman studies different facts she needs to learn for her academic team.

Mrs. Deleget and senior Kevin Kozuch look through math books for the Math team.

Seniors Drew Michaels and Jeff Ready get help from Mr. Besch for the Science team.

BREAKING THE Language Barrier

A New Look At Foreign Tongues

Hello! Hola! Bonjour! For many students at least two of these greetings are familiar, since some students go beyond the required eight credits of English and take a foreign language.

Contemporary Literature, Journalism, Speech, and American Novel are just some examples of English classes available. Spanish and French are the choices for foreign languages.

Although English has its ups and downs, foreign languages propose a problem for students. "American foreign language students have to learn four basic skills all over again: speaking, reading, writing, and comprehension," said Spanish teacher, Mr. Ray Weaver.

Even though some

students faced problems, they weren't all the same. Junior Melissa Busovsky said, "The pronunciation was really hard because it's so different from what I'm used to."

Sophomore Marilyn Bragg said, "The hardest part in Spanish was conjugating verbs."

While American students have problems with foreign languages, foreign students face problems of their own. Foreign exchange student,

“The hardest part for me is to make the difference between slang and good English," said foreign exchange student Bruno Carre.

senior Bruno Carne, from Belgium, said, "The hardest part for me is to make (the) difference between slang and good English. I understand slang; it's just that I don't know whether what I'm learning is slang or not."

On the other hand, sophomore Assma Issa, from Kwuait, said, "Literature and stories are the hardest for me. I know so little English it's hard to understand."

What makes English so hard for foreign students? Mrs. Kay Orzechowicz said, "Our language is derived from so many other languages, that it confuses a foreign student."

So if you find yourself struggling through English or a foreign language, remember that foreign students will be struggling too.

-Ruthie Marvel-

Mrs. Patricks watches as Junior Sam Murrian begins to write out her answer for the next sentence.

Junior Jason Swinson finishes his piñata for Spanish. When he's done, it'll be a donkey.

Junior LoraLee Kilgore leans over to explain the day's homework to junior Joe Gonzalez.

Mrs. Orzechowicz goes through the homework answers in her Basic English class.

Barrett Starks, senior, reads his science-fiction book in Contemporary Literature. Science-fiction was just one type of literature studied.

Miss Weber looks over senior Bruno Carre's paper for mistakes.

Basics of Science

Frogs, Springs, Unknowns and Light

The razor sharp scalpel cuts into the fleshy skin. Skinless frogs are piled up in a corner. Unknown chemicals burn over a flame. Is this a scene from the latest horror film? No; this is science.

Although, the only science class required is Biology 1-2, many students go further on to take Chemistry, Biology 3-4, and Physics. "I thought that I wanted to go into Pre-med to become a pediatrician; and even if I don't do that I know that I want to do something in the medical field," said Kelley Gall, junior in Biology 3-4.

Many activities went on in each science class. In Biology 1-2 students did individual labs and dissected worms. "I liked dissecting worms because I

found out things about my body that I didn't know," said junior Troy Brodie.

Chemistry students learned different elements and their properties. They also learned how to identify certain elements. "In chemistry we did unknowns where we worked individually to try to determine what ions were in a substance by performing a flame test, ammonia test, and

“

I liked dissecting worms because I found out things about my body that I didn't know," said junior Troy Brodie.

precipitation test," said junior Rachael Luptak.

In Biology 3-4 students dissected fetal pigs to learn and relate the systems of the pig to that of a human. "I liked dissecting the fetal pig because it was really interesting. I learned about how different systems of the body work," said junior Jenna Lehmann.

In Physics students learn about the physical aspects of things such as, light and sound.

As the curtain closed on the high school "horror show", students gain valuable skills and knowledge in the science field.

By Ruthii Marvel

(Photos by Jill Littlefield)

Students in Biology 1-2 listen to the teacher during a lecture about Glycosis.

Junior Danielle Dudek carefully mixes together chemicals during her unknown test for Chemistry.

Senior Neil Miklusak and junior Anita Garnett cut away a flap of skin on the fetal pig to expose the salivary glands.

Senior Kirsten Anderson observes the spring in order to determine whether light is a particle or a wave.

Senior Russ Fliter observes the actions produced by the wave machine the Physics students made.

LOOKING BACK

Into History

Students Learn About Their Past

If history repeats itself, are students learning the future along with the past?

Each year students are required to take a Social Studies class; sophomores, World History; juniors, U.S. History; and seniors, Government and Economics. Students may also take Current Events as an elective.

History is mostly taught out of a book; but it doesn't always have to be a straight text book class. Some teachers go beyond the book to teach students a lesson. "The experience I will never forget is being George Bush in Current Events for the reenactment of the Mid-East Peace Conference," said junior Paul Gilbertson.

In U.S. History Mr. Bill Vargo let his students plan a colony on a make-believe planet; including the government, housing, and

laws. "It was really interesting to try to organize a colony. We learned that there's a lot that goes into it and it isn't as easy as it seems," said Junior Lorraine Barenie.

In Government, a speaker came in to talk about the candidates for the 1992 Presidential Election. And Mr. Thornton's class did a book report every nine weeks. "We did book reports to help us further learn about our American heritage. They had to be

“

The experience I will never forget is being George Bush in Current Events for the reenactment of the Mid-East Peace Conference," said junior Paul Gilbertson.

about something that happened in U.S. history, like, World War I," said Junior Chris Wilcox.

For some students their Social Studies class isn't so fun because of difficulties. "Some points in history were interesting, but for the most part it's really boring," said senior Jason Young.

Junior Michele Higgins said, "I didn't like history because I can't find it interesting to learn about things that happened a couple hundred years ago."

As another chapter in history comes to a close, students may wonder what if other students years from now will be learning about what they have already lived through; and if they'll be living what they've already learned.

Sophomore Candy Loudenber tries to concentrate on what she is reading in her World history book.

Junior Paul Gilbertson portrayed President George Bush in a mock Mid-East Peace Conference in his Current Events class, while teacher Bob Hastings listens.

Seniors Rich Jerome, Jeff Taylor, and Scott Trubich are representatives from Egypt at the mock Peace Conference.

A government speaker talked to students about presidential election candidates for 1992.

Seniors gathered in the AV room to take an examination for a chance at a history scholarship.

TAKING A LOOK AT

Math Classes

Algebra, Geometry, Trigonometry

Little Johnny had twenty apples. He gave four apples to Julie and he gave six apples to Tommy. How many apples does Johnny have left?

No, math is no longer as easy as 1 apple + 1 apple = 2 apples; now there is also ratios, square roots of, and some complex equations.

A student is required to take two years math in high school. Some students may go on to take more classes. Some of these classes are Algebra I, Algebra II, Geometry, Trigonometry, and Analytical Geometry.

Senior Candie Hall, who was in Analytical Geometry, said, "I took the class because I liked the challenge of the problems and

the work."

Many math skills are needed for certain types of careers like those in the medical field, biology field, and engineering. Some colleges require a student to take at least up to Algebra II before letting them enter.

Although, math is a class that students are required to

take, it doesn't mean that everyone enjoys it. "I don't like math, especially Geometry. I think it's really hard to do the proofs on the test," said junior Carrie Heusing.

Junior Rachael Luptak said, "There are some things that are really hard to understand; and that's the part I don't like."

While some students dislike things about math there are other students who enjoys it. "I like to work in a class where there's competition and you have to work hard to do well," said Candie Hall.

Even though, the apples are all gone, many students have picked up valuable skills in math

By Ruthii Marvel

(Photos by Jill Littlefield)

"I took the class (Analytical Geometry) because I liked the challenge of the problems and the work," said senior Candie Hall.

Mrs. Deleget teaches her class how to measure angles and determine cord lengths.

Junior Phil Isaily works during Algebra to finish his homework for the next day.

Mrs. Carstensen helps Shannon Bopp with her homework in the hall between classes.

Junior Tony McCabe works on a division problem at the board in Consumer Math.

Sophomore Jamie Benson uses her calculator to work on problems in her class.

FOLLOWING THE Pursuit of Art

A Use of Skill and Knowledge

Art: noun; a pursuit followed as an occupation or means of livelihood and requiring technical knowledge and skill

Skill. Knowledge. Livelihood. These are all words that describe what art is. To some students art can mean other things. Senior Heather Polus said, "We learn how to carve things. Making jewelry is an art that lets you use your imagination."

There were many different art classes available to the student body. Some of those included Sculpture, Ceramics, and Drawing and Painting. Each offers the student different aspects of art. Senior Marco Perez said, "I have learned that ceramics is an art that takes a lot of time to get good at."

Junior John Hilgeman said, "I learned all the technical procedures of

painting and drawing."

Art classes provide a break from the ordinary text book class, letting the student use his or her own imagination to create an artwork. Whether that artwork is a sculpture, a piece of jewelry, or a painting, for some students it's still a masterpiece. Senior Troy Bowie said, "My favorite class was pottery which I was in Independent Research for. All hour I got to throw pots."

Junior Jenny Reder said,

"My favorite class was pottery which I was in Independent Research for. All hour I got to throw pots," said senior Troy Bowie.

The best thing I did last year was this really colorful bird I drew with colored pencils and a pencil drawing of a nude guy."

According to Mr. Witt, the art teacher, art classes are to provide the student with a "basic appreciation for art and a understanding for the art processes."

People can express themselves in different ways. Art , for some students is their form of expression. Junior John Hilgeman said, "I enjoy doing abstract paintings as a form of expression."

What is art? Art isn't just words like skill, knowledge, and livelihood that the dictionary defines it as; it's also what the student wants to make it.

Junior Teresa Ewen puts her unfinished ring into the flame to make it bendable.

Mr. Witt gives a demonstration to his jewelry making class.

Senior Troy Bowie and junior John Novath make balls out of clay to later be made into beads for a necklace.

Senior Eric Schreiber uses markers and colored pencils to draw a picture.

Junior Troy Brodie watches as Mr. Witt shows how to form the beads to make a necklace.

PREPARING FOR

Life After School

Sewing, Career and Adult Prep.

During the course of life many skills are needed; and through such classes as Career Preparation, Preparation for Adult Living and Clothing and Sewing, some of these skills can be acquired.

Mr. Richard Reymo said, "In Career Preparation, hopefully, students will realize the job opportunities and how to go about obtaining them through resumes and planning."

Jenny Reder junior, said, "We learned what careers were the best for each person."

Preparation for Adult Living prepares students for life after school. Some topics discussed in this class were child abuse, incest and family responsibilities. "In Adult Prep I learned how to iron; and

we had show and tell where you brought in something that meant a lot to you; but the toughest part was when we saw how hard disabled people have it," said senior Marco Perez.

Senior Tracy LaBuda said, "I think the best thing we did was when we were disabled. We learned about their struggles, like getting through a door in a wheel chair."

I think the best thing we did was when we were disabled. We learned about their struggles, like getting through a door in a wheel chair," said senior Tracy LaBuda.

Clothing and Sewing classes taught the students such skills as sewing hems and pleats. Margaret Pachowicz said, "We learned how to make clothes to save money. My favorite thing I made was a skirt and a matching jacket."

Through these classes students not only learned some basic skills for the future, but they also learned more about themselves. Junior Lynnette Carter said, "In Career Prep I learn a lot, but I also learned more about myself too. The class showed me my strong points and even some of my weak ones."

By Ruthii Marvel

(Photos by Jill Littlefield)

In Preparation for Adult Living students get to experience what it's like to be disabled first hand.

Students in Child Development "gave birth" to a baby bottle to learn about caring for an infant.

Seniors Noel Grudzien and Tracy LaBuda bring in someone special to talk about at Show and Tell.

Senior Marco Perez iron a shirt for Preparation for Adult Living.

Senior Jen Romano sews together a hem in Clothing and Sewing class. This is just one thing learned in the class.

BUILDING SKILLS IN Business and I.T.E.

A Preparation for the Future

What type of class would student take if he or she wanted to pursue a career in accounting or as a secretary? Or how about a career in mechanics? I.T.E. and Business classes can help a student gain experience in these different fields for future use.

Some I.T.E. classes students could take are Energy, Transportation, and Power Mechanics.

Junior Troy Brodie said, "In the class I was in we learned how to build and design environments. We also learned how domes and stadiums were built. And we learned how to figure out how much area was needed to remake a city."

In the Energy class they make a miniature version of a small coal mine to look at solar energy, fossil fuel, and conservation of energy.

Transportation class looks at the different types of transportation in the air, land, and pipe-line areas.

Power Mechanics deals with computers and cars. The student will learn about different things about cars, and how to reassemble and disassemble a small engine. Junior Ron Price said, "My favorite thing we did in that class was rebuilding a four cylinder engine and learning about the different systems

and parts of the car."

Some business classes available to the students are Keyboarding, Word Processing, Accounting, and Record Keeping.

These classes not only give the student a lift on their career but it also helps students prepare for college by learning typing and bookkeeping skills.

Ron Price said, "In Keyboarding I learned every key and how to type properly. I also learned how to type business letters and term papers."

No matter what reason students decide to take these classes for they will learn important skills.

"In Keyboarding I learned every key and how to type properly. I also learned how to type business letters and term papers," said Junior Ron Price.

By Ruthii Marvel

(Photos by Jill Littlefield)

Junior Michelle Higgins types her research paper in Keyboarding.

One project in I.T.E. is putting together half miniature models of different things.

Eric Yoways works on a ditto for his accounting class.

Senior Donnie Higgins cuts a piece of wood with a powersaw in I.T.E

In Keyboarding, students take practice tests to see how fast they can type, learn to type business letters and how to type term papers.

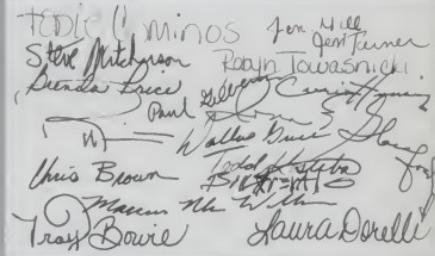

WE GOT IT IN . . .

IN EVERY SCHOOL THERE ARE SENIORS, JUNIORS, SOPHOMORES, AND FACULTY. WITHOUT THESE FOUR FACTORS THERE WOULD BE NO SUCH THING AS "SCHOOL." THERE ARE MANY DIFFERENT GROUPS, CLIQUES, AND CLUBS FOR PEOPLE TO BE INVOLVED IN AT GRIFFITH. ALL THESE PEOPLE WORKED TOGETHER TO PROMOTE SCHOOL SPIRIT IN SPORTS, ACADEMICS, AND ORGANIZATIONS.

DURING THE COURSE OF THE YEAR, CLASSES SEPARATE TO WORK ON PROJECTS SUCH AS FLOAT BUILDING, CHEERING CONTESTS DURING PEP-RALLIES, AND FOR THE DIFFERENT EVENTS ON ACTIVITIES NIGHT. BUT AFTER ALL THE COMPETITION ENDS AND THE GROUPS REUNITE, THEY HELP EACH OTHER TO MAKE IT . . . TOGETHER.

PEOPLE

Left: Coach Reyome waves his spirit towel to get the crowd hyped up to motivate the team to play off victory. Right: The supportive fans in the stands show their spirit by clapping their hands.

We can do it too

They awaken with the sun to do their duty for mankind. Consuming their last cup of hot coffee, they are off to work to endure hardships unbeknown to the average worker. They deal with such remarkable phenomena as airborne books and the incredible disappearing homework. They must teach that boy who seems to always catch every illness from the orient and the girl who always has the Elizabeth Arden makeup center on her desk. These people are our teachers. What keeps these brave men and women going? Why did they choose these jobs?

For English teacher Kay Oreczowicz, the urge to give others knowledge came early in life. "In sixth grade I had a teacher who made learning fun and this turned me on to education."

Reasons for wanting to lead others differ from teacher to teacher. For some it is the enjoyment of being able

to affect successful lives. For others, it is being able to lead and work with different people. Art teacher Robert Witt, had a similar reason for teaching, "I like

The top five things that motivate teachers:

1. Good grades
2. Class participation
3. Enthusiastic students
4. Quality work
5. Completed homework

working with young people."

Motivation to start teaching and the motivation derived to continue teaching when conditions are not favorable are two different things. "Anyone can have an off day," said French teacher Betty Weber, "Sometimes kids who appear to be unenthused can still get something

positive out of a class."

Besides the negative things, the teachers also benefit from the teaching experience. History teacher Les Thornton believed that some benefits were associating with young people and involvement with intellectual life.

"What I like most about teaching is the people you meet and work with, including students, colleagues and the entire community," said Mrs. Carstensen.

With the preparing of classes, grading of papers, and tolerating of students, teachers need plenty of energy everyday. Whether the energy is derived from wanting to lead people or to be able to see the progress people make with help, it may all require equal amounts of motivation. If the urge came from early in life or later in life, one thing is certain, teachers need plenty of energy everyday.

Teachers step out of character

It's football time. Every student in the school does his or her share to cheer the team onward to victory. Each organization and club puts in their efforts to make sure the team knows they are behind them. The locker buddies decorate the lockers, the cheerleaders make signs and routines, but what about the teachers?

Walking down the halls of Griffith High school during spirit week, one saw plenty of participating students as well as teachers. What are the teachers trying to accomplish by this? "I think a certain camaraderie develops between teachers and students when they both get fired-up about the same thing," said Mrs. Sharon Smith.

Mr. Richard Reymo said, "If you expect the students to, then the teacher should set the example, but that's up to each individual teacher."

Mrs. Margie Keithy had a similar idea, "It is lots of fun! It can't help but reflect onto the students and helps students see us in a different light."

Mr. Les Thornton said, "Yes, teacher

spirit is a positive thing because it's good for motivation and mental health."

Helping to cheer on all of the Griffith teams may be very important, but overlooking the very reason students are in school in the first place could be tragic. Receiving an education is the reason

The top five things teachers dressed as:

1. Red Riding Hood
2. Sherry Bragg
3. Bum
4. Clown
5. Baby

students attend school in the first place. Many students become very involved in extra-curricular activities. Does this mean that teachers should make room for such things? Should the emphasis be placed on the education or the spirit? "My number one priority at school is the education of students," said Mr. Darryl

Carstensen, "I do not feel that any extra-curricular activity, no matter how popular with the general public, should be regarded as non important than the education of our youth."

Mr. Richard Reymo also added, "That's what we're here for; teams are only an extension to the educational plan."

Mrs. Sharon Smith also said, "As much as I understand the importance of spirit for its freshness and revitalizing qualities, I think education is more important. Without a solid educational background, without knowledge and strength of character, our spirit celebrations would have no meaning."

Having spirit can motivate the entire school especially if a leader like a teacher, shows it. In the end, one thing seemed to be clear, education comes before teams but it's fun helping cheering our teams on.

Seniors name best of class

Each year the senior class chooses its superlative members. This year's winners are as follows:

Best Artists-
LeeAnna Barber and Todd Kostecka

Most Musically Inclined-
Kirsten Anderson and Scott Trubich

Most Unique-
Sherry Bragg and Troy Bowie

Most Likely to Succeed-
Denise Castillo and Kevin Kozuch

Foreign exchange student, senior Bruno Carre from Belgium, was voted the friendliest boy in the class of 1992.

Most Involved-
Denise Castillo and Scott Leslie

Most School Spirit-
Rhonda Myers and Mike Toth

Class Flirts-
Jenny Clark and Jim Bogner
Smartest-
Rebecca Wisinski and Kevin Kozuch

Biggest Noses-
Denise DeBoer and Jim Lattin

Prettiest Hair-
Susan Carter and Brian Saberniak

Prettiest Smile-
Korey Hrdina and Rick Jerome

Prettiest Eyes-
Jenny Kerr and Roger Helfen

Cutest-
Korey Hrdina and Russ Dewes

Biggest Partiers-
Buffy Bell and Rick Burks

Cutest Couple-
Jen Cebulski and Donnie Higgins

Funniest-
Stephanie Kirk and Mike Garvey

Friendliest-
Amy Will and Bruno Carre

Best Personalities-
Julie Ellison and Neil Miklusak

Rowdiest-
Angie Skaggs and Donnie Higgins

Cutest Laugh-
Tara Anderson and Scott Leslie

Best Bodies-
Jenny Cebulski and Todd Leslie

Best Dancers-
Aimee Enoksen and Mike Hernandez

Bigest Gossips-
Adrienne Bogielski and Greg Uhrt

Best Dressed-
Stacie Carrell and Chris Moriarty

Best Athletes-
Kim Fulkerson and Neil Miklusak

Best Legs-
Denise Thompson and Eric Schreiber

Most Trusting-
Amy Will and Bill Junkin

Richard David Burks, Football 11,12 (All Conf. 12, 1st team All Area 12, HM All State 12), Track 11 (capt. 12), Booster Club 11,12, DECA 11,12, Barstiy Club 11,12, Prom Candidate 11, Homecoming Candidate 12; **Brent C. Class reminisces during banquet

"I really enjoyed the banquet because all of the speeches were good especially Neil Miklusak's. It was funny and sentimental," said senior Kellie Swienecok about the annual senior banquet.

Scherwood Club hosted the event on Thursday, April 30 for over 100 seniors and guests.

Festivities got started when class president Scott Leslie introduced Elaine Healy who gave the invocation.

After dinner, valedictorian Kevin Kozuch spoke about the class' sophomore year. His speech covered everything from the release of Aerosmith's new album "Pump" to Tricia Roye winning Turnabout Princess.

Following Kozuch was class vice president Neil Miklusak who gave the recap of junior year. His topics ranged from big news events to his football memories.

The last of the speeches was given by Rebecca Wisinski, who

covered senior history. She spoke about the football team and the night pep rally to the black cow grazing on the football field after Activities Night. One of the jokes mentioned in all three speeches was that at the end of the year, the cutest couple, Donnie Higgins and Jenni Cebulski, was still together. Following the speeches the senior superlatives were announced by Scott Leslie and Denise Castillo. Those are listed on page 69.

"I thought that the banquet was a blast. The highlight of the night was when Neil said 'Let Gavit Have It' (the cheer used during football Sectionals in 1990 when the Panthers beat Gavit)," said senior Rick Jerome.

Coping with a long night in school

By the time a student reaches senior year, he or she usually feels that enough time has been spent within school walls. However, what would seniors do if they happened to get locked in the high school overnight?

"I'd probably try to get into

After long hours in the J-room working on deadlines, senior Steve Mitchuson gets a little slap happy and decides to entertain the staff by jumping over three chairs.

the guidance office and get into the computers and change everybody's grades," said Allison Kunderot.

"I'd go to the cafeteria and eat all the food," said Rob Wlazlo.

"I'd break into French teacher Betty Weber's room and listen to French tapes," said Derek Wesolowski.

"I would go into Spanish

teacher Mr. Ray Weaver's room and break all the pinatas except mine," said Kirsten Anderson.

"I would go swimming and break into the lockerroom and shoot baskets until I'd get hot then I'd break out," said Barrett Starks.

"I would break into the auditorium, set up all the equipment and have my own little concert," said Steve Hyuck.

"I would get into history

teacher's Mr. Robert Hastings' room and jump into his knight in shining armor costume," said Tahitha Dishman.

"I would go check out the boiler room because I have never been there before," said Kevin Kozuch.

"I'd go through the file cabinets and see what secrets the teachers hide there," said Tomisha Joseph.

The best of '91 and '92

The last year of high school can be the most important one in a senior's life. Even though some senior's were anxious to get out of school, all of them had things they would remember for the rest of their lives.

"One of the things I will remember most is the Semi-State football game versus Bishop Dwenger. I had the best feeling because the whole crowd was pumped up and they cheered with us," said Denise Castillo.

Seniors Tracy Sines, Rebecca Furman and Jennifer Romano represent the class of 1992 by marching in the Homecoming parade.

"I'll never forget all of the good times I spent with my friends," said Jerry Murdock.

"One of the best moments of my senior year was when the crowd rushed on the field after we won the regional championship," said Richard Jerome.

"One of the best parts of being a senior is being able to look at all of the juniors and sophomores knowing that I won't have to come back next year," said Gina Vittorio.

"I'll never forget all of the friends I made from my sophomore year until now, and I'm sure I never gonna forget the trip that I'll be taking to

California with my best friends," said Denise DeBoer.

"My senior year was very eventful. I thank God the Griffith students and staff were so supportive of me. I couldn't have done it without everybody. This is one year I'll never forget," said Katie McDermott.

"I'll never forget Mr. Vargo's class. He showed us how to express our opinions about government in constructive ways. He worked hard and got us involved in many different ways. He really made learning fun and never practiced any favoritism," said Alicia Bodley.

"I'll never forget graduation because I was finally getting out of here," said Karen Hlebasko.

"I will never forget running out on the football field to congratulate our regional champs," said Noel Grudzien.

"I had fun staying after school in the J-room because everyone on *Reflector* and *Panther Press* are really weird and made me laugh," said Tomisha Joseph.

"The best part of my senior year was when I won all of my band awards and the 4-A award for Arts because I worked really hard for them," said Kirsten Anderson.

Looking into the future

Did you ever wonder why we even go to high school? Is it to teach us trigonometry and biology, or to keep kids off the streets? Do we go because no one had any better ideas? Perhaps we go to prepare us for our future, whatever it may hold. Then, how well does G.H.S. prepare us to go into the real world? The seniors had different opinions.

Seniors Mike Farley and Christine Hochstetler dissect fetal pigs in Biology 3-4, a college preparatory class.

"The Science Department has prepared me for college and has given me a better understanding of the workings of the world around me," said Jeff Ready.

"Everyone in our class was pretty close as friends. My favorite class was Preparation For Adult Living. Mrs. Keithly prepared us to handle real life situations and helped us to relate to different people", said Russ Dewes.

"Cadet teaching gave me a glimpse of what I'm striving for. I think I'll have a better

understanding of what to expect. I really loved working with the kids," said Becky Furman.

"G.H.S. prepared me for life by forcing me to make my own decisions. I also had to learn to work on projects on my own time which is more like what college will be like," said Alicia Bodley.

"The senior year is supposed to be the best, so I made it the most fun. Our science department is really good, and I think they prepared me for college courses better than a

lot of other schools around here," said Russ Fliter.

"Working on the yearbook for two years and being Editor-in-Chief has helped prepare me for college because I am majoring in journalism and it will give me experience. It has also prepared me for the future because I've learned to get along with many different people," said Tomisha Joseph.

"Adult Prep. has prepared me for my future because it has taught me to deal with real-life situations," said Diana Davis.

Tricks and treats

Halloween. When most people think of Halloween, they think of little kids running around begging for candy. But is it only little kids? Junior Paul Gilbertson said, "I like to still go out with my friends and have fun."

Though trick or treating is the main activity for the kids, teenagers have a few activities of their own. "I like to go riding around on Halloween, scaring kids and egging houses," said junior Phil Isaily.

Even though egging houses and T-ping are activities teenagers enjoy, some still enjoy good old-fashioned trick or treating. Isaily said, "I think it's really fun to go out, dress up and get candy, especially when I take my little three year old niece out."

Gilbertson said, "It's really great when I go out and get

candy because I always have a good time."

There are other ways to celebrate Halloween besides going out. Junior Missy Henrickson said, "I like to

Top 5 things to do on Halloween:

- Dress up
- Go trick or treating
- Go to a party
- Hand out candy
- Cruise around

decorate pumpkins for Halloween. I like to make funny faces or toothy grins."

Junior Joe Gonzales said, "The best thing about Halloween is being with my friends."

By Tomisha Joseph

One way to decorate for Halloween is by carving pumpkins. A junior carves her pumpkin and tops it off with a toothy grin.

Pre-game fun

Before a game begins, many things must be accomplished. Whether or not you're part of the actual game or just a spectator, each person has his or her own rituals that moves him or her toward the anticipated moment.

The football players have their own order of events that precede the game. Some things are done together as a team as junior Nate Miklusak said, "After we eat, we always go for a walk, even at far away games."

Another activity that is done before a game is viewing the game films. Junior Brad Zabeck tells the benefits of film viewing, "We watch game films to mentally prepare ourselves to go into combat on the battlefield."

Band members must practice their performance for the game. Junior band member Karen Grubbs said, "I have to be at school an hour and a half early to prepare for band for the

game."

Each Friday during football season, one can find the hallways festively decorated for the occasion. Cheerleaders are one of

The top 5 things students do before a game:

- Eat
- Practice
- Mental preparation
- Take a shower
- Talk to friends

these teams that must prepare hallways, lockers, and themselves before a game begins. "After school we decorate the locker room and then usually go home and get ready for the game. We come back to school and stretch out and get warmed up," said junior cheerleader Kelley Gall.

Pantherettes are another

team that pulls together before a game. Junior Jodi Haack said, "During class last hour we practice our performance with the band. We usually have to set up and go over things one last time."

Besides teams, individuals are busy too. Junior Kim Woodall said, "Some of my friends and I get together before a game to get ourselves ready."

Junior Angie Kaufman agreed, "I do my hair and talk on the phone to my friends."

"I usually go over to a friend's house to try to find something to wear and hang out until it's time to go to the game," said junior Katie Gulotta.

Everyone does his or her own individual thing before a game to support our Panthers, but what is the most important thing? "To have fun with it all," said junior Jayme Osika.

By Paige Jacoby

Pulling together, the football team does Breakdown at a pep rally. Breakdown is done before every game to motivate the players.

Picture of perfection

Cindy Crawford, Mel Gibson, Julia Roberts, Kevin Costner, Claudia Schiffer, Tom Cruise. The picture of perfection; or are they?

Beauty is in the eye of the beholder and for the most part that is true. But what does attract members of the opposite sex to each other?

Junior Phil Isaily said, "I'm attracted to a girl because of her personality and her body."

Junior Charlie Marquand said, "I'm attracted to a girl because of her body, face, and hair. I like a girl with really nice hair."

Junior Andre Jones said, "I like a girl who's cute, has a good personality, and is fashionable."

The majority of guys are attracted to a girl's body and eyes. And girls are attracted to guys mainly for the same reasons.

Junior Mitch Ensign said, "I'm attracted to a girl's eyes. I love their eyes."

Junior Anita Garnet

said, "I'm attracted to his eyes and his body."

Although, looks seem to play a major role in attraction, some people believe it's the personality that really

Top 5 qualities that juniors find attractive in one another

- Body
- Personality
- Eyes
- Face
- Hair

counts. Others feel that a person's looks are just the first key to attraction.

Junior Sandy Bronson said, "Looks don't really matter because it's what's on the outside that counts."

Junior Rachael Luptak said, "Yes, looks count. If a person isn't good looking you

wouldn't want to go up and talk to them if you didn't know them."

Jones said, "Looks count a little bit. That's what first attracts me to her."

Whether attraction stops or continues into a serious relationship depends on different factors.

Bronson said, "Trust is a big one. Trust and honesty. Just being able to talk and have a lot of fun with each other."

Luptak said, "Trust and love are almost the same thing. You have to understand each other."

Ensign said, "A lot of talking, communication, is a big factor. You also have to know each other like you know yourself."

People have different ideas about what attracts who. So, what one person finds attractive another may not.

The art of annoying teachers

Molly talks to Billy across the room. Edward sleeps soundly on his desk. Sue bounces thoughtlessly in her chair. Nick blows a bubble and lets it pop. All of this occurs while the teacher tries to give notes for tomorrow's test.

Enter any class and you'll find at least one student who has some way of annoying the teacher. Anything from popping gum to sleeping during class is fair game. Half the time it's out of habit; the other half is just out of plain disrespect.

"I like to annoy my teachers because usually it's a boring class and it adds fun to it. People try to have fun while they learn," said sophomore Brian Hopper.

One of the most common ways students annoy teachers is by talking during class. "I like to talk in class when it's really boring and there's nothing else to do," said

sophomore Tiffany Schafer.

"I usually talk in class only if someone else talks to me first," said sophomore Rachel Ehresman.

The 5 top things that annoy teachers:

- Sleeping
- Talking
- Blowing Bubbles
- Smart AlleckyKids
- Making noises

Still some people prefer more original ways to annoy their teachers. Sophomore Jo Nahod said, "I'll keep asking the same question over and over again; just rephrase it a little."

Sophomore Lori VanAuken said, "I'll tapmy pen on

my desk or make loud noises to annoy the teacher."

Sophomore Brian Hopper said, "To annoy a teacher the best thing to do is to go to sleep."

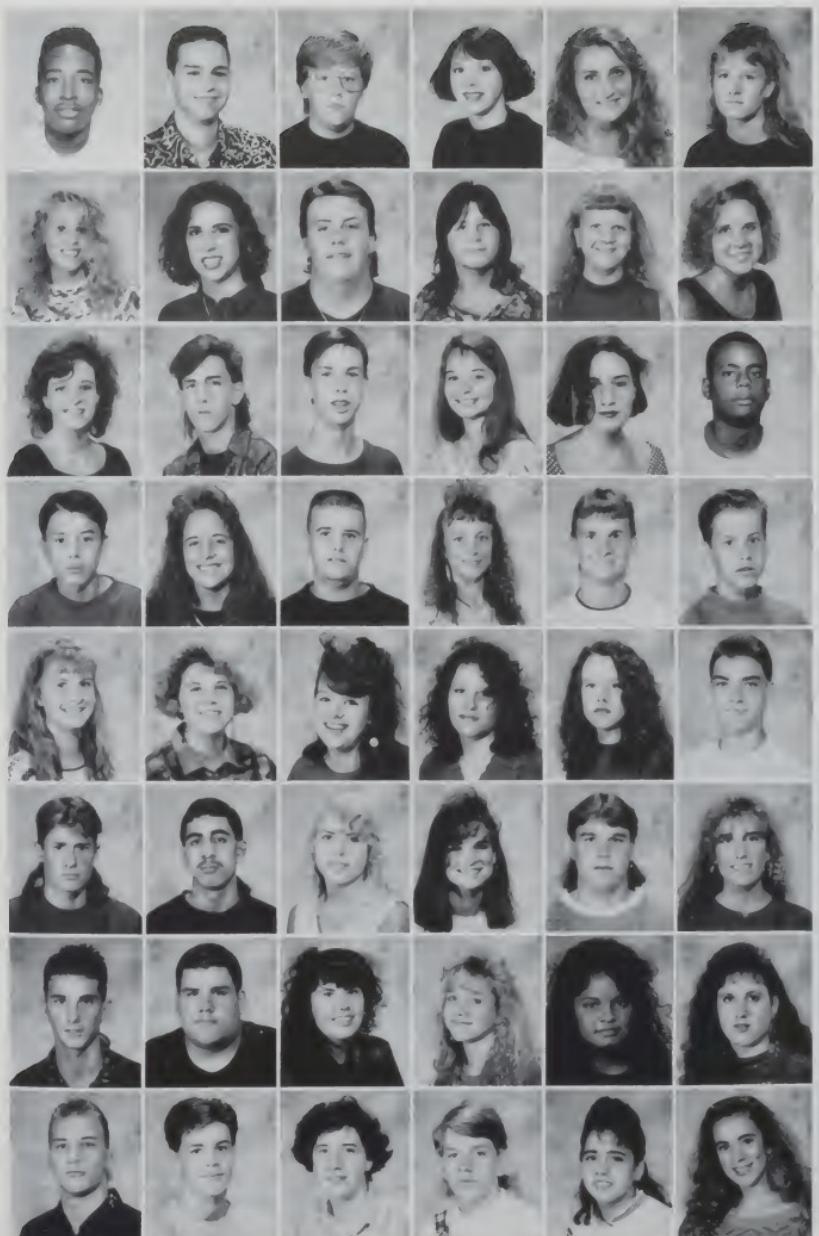

Not everyone enjoys the pranks that students do to bother their teachers. Some people, in fact, find it rude and disrupting to the rest of the class. Sophomore Dan Bartnicki said, "When student does something to annoy a teacher it slows down the learning process."

So, whether you habitually sniff or purposely tap your pencil, you're probably guilty of annoying your teacher (and some of your classmates, too).

Dress to impress

Making yourself look good has always been a task that has never been taken lightly by most people. The use of clothes, cars and make-up have always been the easy way to look your best. Now it goes one step beyond; working out has become a good way to improve an individual's looks.

"I work out at Chicago Health Club twice a week and I work out in my basement every night on the treadmill and exercise bike," said sophomore Jo Nahod. "I have to keep in shape for my sports. Also, I don't want to turn into a blimp!!!"

But working out, or any other process to make yourself look good, takes time. And sometimes it can eat into your schoolwork.

"Looks aren't more important to me than my schoolwork because I need to fulfill my education, and

get ahead in life," said sophomore Greg Decker.

Nahod agreed, "Looks only last so long, but your education lasts you your entire life."

"Schoolwork is a little bit

The 5 top things students do to look good.

- Work out
- Dress nice
- Style hair
- Drive nice cars
- Wear Make-up

more important to me because I feel I can get farther in life with what I know rather than how I look," said Bopp.

Some people, however, feel differently. "It depends on if I'm going out somewhere, or just going to school," said sophomore Dana Navarro.

"I feel that my looks are

more important than schoolwork," said sophomore Mark Williams, "because I don't like schoolwork very much."

Sometimes, no matter how hard an individual tries to make himself look good, feel they're not prefect and wish they could change things.

"I would probably change my height," said Bopp, "Being just under five feet tall isn't that exciting."

"No matter what people say, when it comes down to it looks do count. They're something we all consider before we date someone," said Nahod.

The day from hell

Everyone has had one of those days that makes him or her completely miserable. The reasons that make a day not good for each individual are as different as night and day. The length of time we spend and the people who put us in this sad state may also differ as several sophomores stated.

"I can always tell it's going to be a bad day when I get a test that I can't even read, much less answer," said sophomore Keela Gootee.

"Knowing I have to wake up and come to English makes my day bad," said sophomore Luke Dalach.

"When I have a bad day it's usually because I forgot to do my homework. I usually get really cranky and take it out on everybody," said sophomore Joe Nahod.

"I have a bad day when I have to get up early for practice and then have to go to English first hour," said sophomore Tom Murray.

"The thing that makes a day bad is when teachers give too much homework on the weekends," said sophomore Jenny Ristic.

"Guys make me have a bad day," said day," said sophomore Jamie Covert.

"When I'm having a bad day I always take it out on my parents otherwise I would make everybody around miserable," said sophomore Greg Bradburn.

WE GOT IT IN . . .

Everybody goes to school, but not everybody is involved. For those people who are, there are organizations for them to join. Some of these organizations consist of Honor Society, Student Council, Booster Club, Choir, Band, Pantherettes, and the Bowling Club. Many of these organizations have requirements in order to join, while others have no restrictions.

Some organizations have fundraisers to help not only Griffith students, but to help people in general. The Blood Drive is one of these fundraisers sponsored by Honor Society, whose efforts helped people in need.

Other examples would be DECA sponsoring a "lap-a-thon" for Muscular Dystrophy. The clubs and organizations of Griffith High School work along together with the community.

Band director BRINGS SOUNDS *of change*

"1, 2, ready, go!" leads new Griffith High School Band Drum Major Dedra Rutherford. The Drum Major wasn't the only change made this year. The Band has undergone a few other changes. With the retirement of Mr. Cross, Griffith found itself without a band director. Mr. John King was chosen to fill that spot.

"I came to Griffith because it had all the ingredients to make a first-class band program which is an adequate amount of students in the program, a good funding program, and good support and encouragement," said King.

King added, "I have felt that the students, faculty and administration have made my first year pleasant, but as with any different situation, it's hard because things are all so new."

It was new for the band as well.

I think the band itself is better now than it was before," said Sophomore Rick Lane.

Senior band president Kevin Kozuch agreed, "We lost a lot of good talent from last year, but we have improved since the beginning of the year."

Another change was the Christmas concert. This was the first year it was attempted using both Band and Choir.

"I felt it was a big success," said King, "Mrs. Spejewski and I felt it would be a great way to do a Christmas Concert."

Others agreed with him.

"I think it was different, more exciting, overall better, than past concerts," said Lane.

Some felt differently about it though.

"I personally felt that it was more like the 'Choir' concert featuring the

band and didn't feel very much," said Sophomore Glen Panozzo.

Junior Rebecca Chandler said, "I enjoyed the concert. It gave me a chance to hear the choir, but I don't think the band got to play enough."

The band-choir concert doesn't end the changes. Mr. King plans on bringing in professional conductors and college band ensembles to help the band with their playing. A trip to Holland, Michigan to the tulip festival is also in the planning stages, along with a possible fund raiser. But none of this is definite.

"I feel that the band needs to view themselves as a leading group in this school. This includes football and basketball games, commencement, pep sessions and especially as a musical ensemble that can make G.H.S. proud," said King.

-Jim Dwyer-

Choir: JOINED BAND FOR CHRISTMAS *but stayed single for spring.*

Not everyone has the courage to get on stage and sing or dance or even wash their hair, in front of their parents and their peers. This year the Choir did just that and thought nothing of it. These are the people that have been a part of choir for a long time.

"Choir has always been a part of my life," said Junior LoraLee Kiglere. "It's a natural thing for me to do and be a part of to me."

Junior Kim Woodall agreed, "I've been in Choir for a very long time and it seems inconceivable for me not to be involved."

"I enjoy it because I like to sing and it's an hour out of my day that I can somewhat relax," said Junior Kelley Gall.

Junior Amy Bishop

added, "It's a very unique class to be a part of because you can be with your friends who enjoy the same activities."

"I love to sing and I think that it's more challenging than Junior High Choir," Said Junior Jodi Haack.

"I had a good time this year at the spring concert. There was a lot of dancing in it and that always makes concerts more fun," said Junior Sarah Krooswyk.

This year was also somewhat different as far as the Christmas concert was concerned. This year was the first time the Band and the Choir combined to do a performance.

"It was different having the Band and the Choir

together. We liked it," said Junior Jenna Lehman.

Gall agreed, "I think it was a good way to bring out a crowd to see both groups."

"I think that it was a good way to unite the department because Choir and Band don't really do much together," said Junior Alyssa Verga.

Woodall summed it up the best by adding, "We felt that Mr. King and Mrs. Spejewski worked well together. The concert was a big success and it was a welcome change from our normal concerts."

Leaders: LEADING G.H.S INTO *the future*

At Griffith, there are many organizations and groups to be a part of. But groups don't run and operate by themselves in some haphazard order. There are leaders to organize and coordinate meetings and events.

"I enjoy being involved in planning activities and doing other things with the group I'm part of," said Senior Kevin Kozuch, National Honor Society President and Student Council Vice-President.

Senior Booster Club and Sweatergirl President Jennifer King agreed, "I like to be a part of the planning of our activities and the coordination of events."

Leading a group is no easy task. Sometimes ideas and events sound good on paper—but they don't always turn out well in reality.

"The weeks before and of Homecoming were very stressful for a lot of people," said Kozuch. "All the plans that needed to be made and certain events that had to happen at certain times played heavily on our nerves."

"There were times when I got really stressed out about certain things," said Senior Denise Castillo, President of Student Council. "But I've learned that things aren't always going to go the way I've planned, so I compromise in certain areas and make the best of it."

There are some benefits to being a leader of a group. By being a part of or leading a group, better leadership and authority skills are built up. Plus it looks good on a college application.

"Being a member of differ-

ent groups has helped my leadership skills, made me a more responsible person and has helped my communication skills," added Castillo. "I have learned to deal with my responsibilities more efficiently through these groups."

Pantherette president Noel Grudzien said, "With being part of the Pantherettes, I have learned special leadership and teaching skills that can be used in the future."

Leaders lead; it's that simple. Without these leaders, who knows what might happen to our events like Homecoming and the Pep Rallies. It just goes to show that Griffith's organizations leaders have got it...together!

Honor Clubs: A PRESTIGEOUS PART of G.H.S.

Honor clubs at Griffith are a very special thing to be a part of. It takes a lot of pride, work, effort and dedication to make the grade with these groups. Unfortunately, they are not for everybody who goes to Griffith just for those who have the ability and can handle the pressure of being a part of one of these groups. Their eligibility standards are quite high.

"To be in Honor Society, a person needs a minimum of a 3.4 G.P.A., be involved in extracurricular activities and demonstrate good classroom leadership," said Senior Honor Society President Kevin Kozuch. Teachers must also give you a letter of recommendation for evaluation points. Then these and the activities points are added together and divided out. If the total is 3.4 or above, then one is invited to

join."

Honor Society isn't the only organization to have high standards. Varsity Club requires that you be a varsity letterman in any sport. Quill and Scroll requires that you be in the top third of your class and be on Panther Press or Reflector. However, the prestige associated with these groups are well worth the effort to become involved.

"I think that it is a very prestigious honor to be involved with Honor Society," said Senior Jennifer King. "There are many people out there who have the grades but they aren't involved in other things. To be part of this club takes a well rounded person that shows exemplary leadership qualities and talents."

Well rounded means to be a part of different groups and still keep up with your grades. Truly a hard task and not for everybody, especially those who don't have a lot of time.

"During certain times of the year, Honor Society involves a lot of time," said Senior Denise Castillo. "Other times it doesn't. It just depends on the activity at the time."

Honor clubs at Griffith, not for everybody, but something to shoot for.

DECA: A HEADSTART ON *the future*

The week of February 9 through February 15 was proclaimed national DECA week to honor the GHS group DECA- An Association of Marketing Students, for their achievements in various competitions and their ability to combine job performance and education. The group was honored for their involvement with the Care Tree project, a project that helped give needy kids a gift for Christmas and the Lap-A-Thon for Muscular Dystrophy, which raised \$3000 last year alone. But it went beyond competitions and fundraisers, it also helped students get ready for jobs after school.

"DECA is great because the different field trips and competitions helped us get

involved in school activities," said senior Sam Kolbert.

Senior Tracey Merriman said, "DECA helps you become more responsible. It gives you an idea of what needs to be known before working in the real world."

"It will prepare me for life after high school and college," said junior Tony McCabe. "DECA will give me the experience and partial training I need to get a good job."

Coordinator Richard Reyome said, "I enjoy sponsoring this group and seeing them gain experience outside the classroom."

"In DECA, we're all like one big family," Kolbert added.

Senior Mike Farley said, "It's good because you get a chance to work with different people and build good relations."

To keep within DECA's educational helpfulness, the students have planned a field trip to the Chicago Board of Trade and to Gurnee Mills, a discount mall in Gurnee, Illinois, to see different types of marketing methods in action and to compare different types of marketing strategies.

Reyome added, "I feel that the competitions, and field trips helped give the students the experience they need, beyond the classroom, to make it past high school and college. It's hands on experience, not just classroom learning, that will be their greatest asset in getting a job."

-Jim Dwyer-

Mr. Reyome and senior Denise DeBoer stock up for pre-school DECA candy sales.

While walking laps for charity, DECA students Jerry Farrar and Scott Sutton decide to eat a snack.

Pep Clubs HELP SUPPORT *our teams*

During various sports seasons, it isn't highly unusual to see posters placed over lockers, streamers hanging from the ceiling, and athletes running around with sugar highs and neat-o toys to play with. How did all of this happen?

Griffith's pep clubs did it.

Well, two of them anyway. The many members of Booster Club and Sweatergirls take the credit for these actions. It is their responsibility to decorate the halls and walls. Sometimes this gets very time consuming.

"In Booster Club, you only have to put in the time you feel is adequate," said Booster Club and Sweatergirl President Jennifer King. "But Sweatergirls takes up a lot more time and effort."

The third pep group deals more with dancing than decorating. They are the Pantherettes. However, just because they don't hang streamers doesn't think their life is any easier.

Pantherette President Noel Grudzien said, "I had to devote one-hundred percent of my time, energy, and patience to Pantherettes. It was difficult at times, especially while trying to do homework and work. I have to sacrifice events so that I can practice and organize functions or routines."

Sophomore Bethany Minnix agreed, "It is very difficult to become a part of Pantherettes because I won't have as much free time as I used to."

The decorations and signs

are usually noticed by all in the school. But sometimes credit is not given where it is due or is passed on to the wrong people.

"People don't realize how much work the sweatergirls do," said King. "And sometimes don't care."

Sometimes the lack of time and too many things to do can lead to conflict.

"It became extremely difficult at times when work conflicted with practices and meetings," said Grudzien.

Minnix agreed, "Sometimes, depending on the night, my homework wouldn't get done because of lack of time."

Jim Dwyer

The Pantherettes stand at attention waiting to perform at a football game.

While trying to imitate their daughters, Pantherette moms do a routine during the town pep rally.

Senior Pantherettes
Noel Grudzien and Jenni Cebulski wait to perform at the town Pep Rally.

Miscellaneous Clubs: LIGHT UP THE STAGE *or bowl a strike*

There is something other than sports and student government clubs that keep the student body involved with things. There are two other clubs out there that don't get that much attention. These are the Bowling club and the Stage crew.

The Bowling club was an after-school organization that met on Wednesdays at Plaza Lanes in Highland. They met for two hours each session. The club was formed to give students a chance to bowl in an organized manner.

"I liked being part of the bowling club because it was fun," said Senior Kirsten Anderson. "We had a really good time together."

Throughout the year, Griffith has many Band, Choir and Drama productions. Each of these performances need some measure of lighting, props and sound reproduction. There is one group that controls it all. They are the Stage Crew. The Stage Crew members are the ones responsible for building props, setting lighting and coordinating sound and microphones.

"I like stage crew because it allows me to use my imagination when building props," said senior Andy Haskins.

Junior Christine Fisher agreed, "I enjoy being a part of the Stage Crew. We

like talking and goofing off with the props."

"It was a good time. It was fun," added Junior Lorainne Barenie.

Even though they may have had a good time, it is sometimes no easy task to do some of the things asked of them.

Haskins added, "Working on stage crew is hard but worth it when you see the finished product."

-By Jim Dwyer.

Student Council TAKES CHARGE OF *extras*

Student government has always played a key part of life at G.H.S. Whether it was the big things like Prom, Turnabout and Spirit Week to the "little" things like Santa-Grams, Food Drive and the Service Auction. Someone had to coordinate all of it. This task fell on GHS's government clubs, consisting of Student Council and the individual class councils.

The council partakes in many in-school and community projects each year such as Santa-Grams, Homecoming, the car wash, and the state student council convention. Community projects include the Service Auction, with all proceeds going to the Griffith Emergency Relief Fund, and a community-wide food drive.

"This year, the Sophomore class council participated in

Homecoming events and Turnabout plans," said sophomore Jo Nahod.

Senior Denise Castillo said, "Student Council plays a big part in Homecoming activities by coordinating Activities Night, Spirit Week and the Homecoming parade. Also we Sponsor at least two dances a year."

However, not all of these projects go smoothly and easily. One such case was Homecoming.

"Homecoming was the hardest project of the year," said senior Kevin Kozuch. "There are a lot of things to do and little time to do them all."

Junior Melissa Busovsky agreed, "Everything for Homecoming week would be all planned out, but something little would go wrong and

plans would have to be scrapped."

Castillo also agreed, "Most of the members of Student Council are also in other organizations so individual time was limited. Plus, there is always pressure to outdo last years activities."

Outdoing last year doesn't end at homecoming activities. This year the use of parliamentary procedure was introduced, and more student involvement was encouraged.

"We had a great group of students in Council this year," said Castillo. "Attendance at meetings varied along with committee volunteers, but overall we tried to get everyone involved."

-Jim Dwyer

race Mann was cancelled, so they played a Black and Gold game. After the first two games against Lowell and Munster were shutout by Griffith's "Black Magic," they faced the Crown Point

Bulldogs. The Panthers' only loss was to Crown Point by one point in overtime. Senior Halfback (offense) and Outside Linebacker (defense) Russ Dewes said, "We knew that Crown Point would be tough against us, but we also knew it would be a good game."

Once the team soared past Calumet, they came to the next challenge-Lake Central. The Panthers won the game by one point due to a two-point conversion caught by junior Halfback (offense) and Defensive Back (defense) Jerry Farrar. The Homecoming game against Highland was a shutout 41-0. The final game was against Kankakee Valley, which was dominated by the Panthers.

Griffith walked away from the regular season with a 6-1 record and 264 points scored against their

Pass and Play

continued . . .

opponent's 47. Senior Defensive End (defense) and Guard (offense) Rikky Burks said, "We had such a winning season because we were just that much better than the teams we played. Looking at the team, we were really confident in winning."

The team entered sectionals with a lot of spirit and confidence. The first game against New Prairie was a victory of 62-6 for Griffith. The next two games were the coldest two of the year. Both were played on home turf, which were advantages for the team. Griffith shutout Hammond Gavit 64-0. They also shutout Bishop Noll for the sectional title 34-0.

The team then got psyched up for Regionals. The game was at Angola, which was 150 miles away. The stands were filled with dedicated fans. "We had some truly dedicated fans. For all those people to travel 150 miles to Angola to watch high school football showed how much the community was behind us,"

said head coach Les Thornton. The game had many penalties, but the team pulled through another successful victory of 21-8 giving them the Regional trophy for the first time for Griffith High School. "It was really exciting winning Regionals. We made history here; We did something no one else ever did," said senior Offensive Guard (offense) and Defensive Tackle (defense) Rick Jerome.

The town, coaches, and teachers then decided to hold an evening pep-rally in honor of the Semi-State game that was to be played. It was held the night before the big game against Dwenger. Football players, students, parents, faculty, and other fans joined in to hype the team up. It was an enjoyable event that the whole community took place in. "The pep-rally was really exciting. After the pep-rally, I was ready to play Dwenger right then," said senior Halfback (offense) and Cornerback (defense) Don Wassermann.

"The pep-rally was an inspiration for the football players as well as the community. Griffith football bonded with the community because of the pep-rally," said senior Outside Linebacker (defense) and Fullback (offense) Scott Leslie.

At the Semi-State game, the stands were full of people on both sides. In the first quarter, Senior Todd Leslie scored first with a 54-yard touchdown run. By the third quarter, the Panthers led Dwenger 21-7. In the fourth quarter, Dwenger brought out their "flex offense." Griffith wasn't expecting it, so it threw them off. The season ended for Griffith against Dwenger 27-21. "Nobody was overconfident in that game, but we tried our hardest. Everyone knew we had to play our best game," said senior Fullback (offense) and Inside Linebacker (defense) Todd Leslie.

"It was a very emotional game for all of us. We were minutes away from state and we lost," said junior

Quarterback (offense) and Safety (defense) Scott Sherry.

Senior Offensive Tight End (offense) and Defensive End (defense) Neil Miklusak said, "It was a heartbreaker knowing we were winning 21-7 and had Dwenger on their butts. They used the Flex Offense, which we hadn't seen since the Crown Point game. They used it effectively against us."

"We did everything we could have done in that game and we still got beat. I guess God didn't want us to win that game, but this year was still the baddest season GHS has ever had," said Burks.

All in all, the year turned out to be a winning one, even though the team didn't go all the way to State. This year was a tremendous year. You're always gonna suffer a loss in playoffs if you don't go all the way to state. The team had a great season, said Thornton.

Volleyball team ended season with a good feeling

Over the Net

Making the year's events memorable

The Lady Panthers started all psych'd up. Conditioning started in the summer to get the girls prepared for their season. The varsity team contained three seniors, seven juniors, one sophomore, and two freshmen.

Volleyball is active sport that keeps the player constantly moving and watching the ball. "Volleyball is my favorite sport. I love the action and competition. It keeps me moving when I'm on the court," said sophomore Jo Nahod.

The team's physical size was rather small. Many of the schools that the team played were larger or taller. "Height-wise we were a small team, but we overcame that with good serving," said senior Kim Fulkerson.

The teammates worked hard individually, but needed to work well as a team. Junior Leslie Biscan

said, "Volleyball is pretty much a team sport. Teamwork is needed in order to play well."

The team's season turned out to be a good one. They improved in teamwork and serving looked good as well. "I feel that my serving came

along really well. That was one of many goals I had, and I accomplished that one this year," said Nahod.

Fulkerson said, "A goal as a team we accomplished was we beat some teams that we didn't the year before."

The season came to an end quickly. After all the work of serving, spiking, and bumping, the team lost their first sectional game to Crown Point. "We tried our best, but we just couldn't get it together," said Fulkerson.

The outcome of the year had its ups and downs. "The season went pretty well overall. It seemed like for every game we won, we lost one too," said Biscan.

people to come out in order to do better. Griffith's Cross Country team did not place too well during the season. Also, we really didn't get a lot of practice done over the summer. We needed more work before the season

started," said Lattin.

The Girls Cross Country team runs one race that is 2.5 miles long. To be able to compete in a race five runners must be entered. There were six members on the team, but they were counted as incomplete because of injuries. "Our team never had five runnings (due to injuries); therefore, we could not score as a team. We could, however, compete individually," said Coach Jeremiah.

Both teams had difficulties, but overcame them.

Accomplishing things never done, the wrestling

On the Mat

team ended with a Sectional and Regional win

The wrestling team pulled off a great season in the 1991-92 school year. For the first time at Griffith High, the team won Sectionals and Regionals, and had the most people to qualify for both. Also, the team won the Calumet meet for the first time since 1967. The overall record for the senior dominated team was 18-4 (and 2nd in Conference)—one of the best in the school's history.

For many, wrestling is an individual sport. Every match relies upon the individual, which in the end makes the meet a victory or loss. Also, it's a good sport to relieve stress or anxiety. Senior Scott Leslie said, "It's a good sport to take your frustration out on people that is legal."

Lehman.

Another weak point was inconsistency. "Some games we would have high percentages, and then in others we would have low percentage games," said

Lehman.

Some better points for the team was their good attitudes about the games and their powerful defense. "Our team consists of smaller people compared to the other schools, such as Lake Central who has bigger and taller girls. What made us good is that we were small and quick and we had a good defense," said senior Kim Fulkerson.

Recipients of outside awards are as follows: Wheeler All-Tournament team, Sectional Team, and 2nd Team All-Conference, Jenna Lehman; and All Conference Honorable Mention, Kim Fulkerson.

they were young and inexperienced. Having all the more swimmers did not justify the team in winning all their meets against the bigger schools. Senior Brent Butler said, "We had a

lot more people than we did in the previous years. With all the new people, it made the team very inexperienced."

Trying to prove individually is just as hard as trying to improve as a team. Throughout the season, the team showed some major improvements. "Spiritwise we improved and we were more mentally into it. From the middle of the season till the end we took it more seriously and seemed to get along better as a team," said senior Kevin Kozuch.

"In swimming if you work hard, do the work out, and push yourself more and more, you can do very well," ended senior Adam Schroeder.

"It was exciting qualifying for Regionals since

it was my first time ever."

Sophomore Jamie Benson

As the team started out big and inexperienced, they

Running a Mile

struggled with mostly underclassmen to succeed

Starting out the year two months in advance, the girls track team began rather large. Throughout conditioning, many trackers were lost and the size of the team was reduced. The team was a rather young one that faced many obstacles in the future. The underclassmen dominated team gave it their best ending the season with a small, close-knit team. "We were a team of friends, not just because we were small, but because the coaches helped us stick together," said junior Rachael Luptak.

Since the team had many inexperienced sprinters, high jumpers, long jumpers, discus throwers, and shot putters, they suffered in scor-

ing during the majority of the meets. Compared to the track teams of other schools, Griffith's was a mere minority. "They were so much bigger, that when we ran in a relay race, they had two teams compared to our one," said junior Rebecca Chandler.

When conditioning began in February, the girls trained hard and long while readying up for the short season ahead. They practiced in the rain and cold weather, which was tough for some of them. The training seemed to be difficult for many newcomers. Luptak said, "When you run, there is pain and the people running don't think they can handle

this pain, so they give up. But even though running hurts while you are doing it, it pays off in the end by keeping you more in shape."

As the team entered Sectionals, they were hoping to do well while trying their hardest. The young team attempted to send some trackers to Regionals, but only one headed the call. Sophomore Jamie Benson made Regionals by beating two other girls out through disqualification. Benson said, "It was really exciting qualifying for Regionals since it was my first time ever. I just hope next year I can do as well but go even a little bit farther."

"I think we fell apart because of the lack of discipline."

Senior Korey Hrdina

Softball team strikes it big for the year

Running the Bases

with an overall record of 14-9

As the pitcher throws the ball, the batter squints hereyes because of the gleaming bright sun. She strikes the ball with a great force. It flies into left field. Running to first, the batter tries to beat the ball to the base. "Safe!"

This is what happens during a softball game with the Lady Panthers. For the softball team, they had five seniors and also was complete with additional juniors and sophomores. Senior Korey Hrdina said, "We had a lot of ups and downs. I think we fell apart because of the lack of discipline and that's how we beat ourselves. At the end we had just started to get it together."

Making their way through the season, the team seemed to be inconsistent. As the sea-

son passed, the games would have good hitting

one game and not in another. "We would either have a good defense and bad hitting or great hitting and a bad defense. When we lost, we always seemed to have close games,

though, and were never really blown away," said senior Kim Fulkerson.

"Our strong points were different from game to game. We had great batting at times along with great defense," said senior Tricia Roye.

A definite strong point for the team was pitching. "We all got along and had strong pitching, but it had its ups and downs, too," said junior Becky Duney.

The last sectional game against Lake Central was a tragic loss of 9-2. The girls finished the season with an overall record of 14-9. Roye said, "I'll miss playing at GHS because I feel I'm at my best when I play this sport-I enjoy the competition."

Baseball bats out a season with season record

Bases are Loaded

of 11-15 and first Sectional win since 1977

During the 1992 baseball season, the boys baseball team did not strike out. They had a great year. The record during the regular season ended as 11-15, and in the Lake Suburban Conference ended 3-9, which was seventh place. The team practiced hard and toward the end of the year eventually started to look better. "We thought it would be a good year, then suddenly we would bounce back and forth between winning a few and losing a few games. Finally, after going into Sectionals, we seemed to get ourselves together. It turned out good since we won Sectionals," said senior Scott Schaller.

The Panthers won its first Sectional Title for the first time in about 15 years (since 1977).

"As long as we try, we can be a good team, not a great team. Some of our players did a real

good job this year, especially Scott Sherry in the Sectional game against Munster," said Coach Jim Anderson.

Baseball is a sport in which skill is required. Many of the baseball players are skillfull in the game even before the season starts. That was how the team's performance was this year. They played with skill and it paid off in the end.

Junior Kevin Daugherty said, "I feel that the team members performed with lots of skill and dedication. We just didn't seem to have it together until the last few games, and it helped somewhat especially during Sectionals, but it didn't help our already set record for the season."

this is the biline part at the top of the headline.

Swings of Things

this is the bottom of the biline under the headline.

Tennis is a sport of casual play or competition. It is a way to easily rid the body of stress by banging a ball back and forth over a net. But in this case, the tennis that applies would be competitive. The girls tennis team strived for a successful year and they all came out winners.

The team finished the regular season with a record of 9-5. "We started out tough, but there's always a few teams that can beat us, but we gave it our best," said junior Danielle Dudek. Going into sectionals they were ready to take on their opponents. The team consisted of mostly juniors. An advantage to having a lot of juniors was because most of them were on the team as freshman, so they had

reflection of the control and teaching ability of the coaching staff. It seemed strange that the coaches tried to start disciplining us on the last week of our senior

year."

"The soccer season this year was a little bit disappointing for the senior Russ Dewes and for the rest of the team. Even though we did start to do better at the end of the season we still didn't do very well," said sophomore Ricky Lane.

Some of the team members received awards for their year's performance and hard work. Conference awards include: First Team All Conference, Russ Dewes and Ricky Lane; and Second Team All Conference, John Korba.

team."

*Junior
Kelley Gall*

Cheerleaders aren't just girls walking around in skirts and screaming at the top of their lungs at games. They are more than that. They are there to get spirit going in the crowd, cheer on the team to a victory, and show their spirit and pride to all of the fans. "I like being a cheerleader when the crowd responds to our cheers," said sophomore Natalie Pastar.

The cheerleaders play a major role in the school's spirit. Not only did they lead the crowd in cheers at the games, but they showed spirit toward the team by decorating their lockers for locker buddies and giving a Sectional Breakfast for the Football team. "By being a cheerleader, I want to give the athletic teams all that support that I can and get the crowd

involved. It gives players an extra boost when they hear their fans cheering for them so I hope that I can at least help with that," said senior Denise Castillo.

Cheering takes a lot of hard work and dedication. It basically goes from summer, when the girls go to camp, through March when Basketball season ends. "Cheerleading takes a lot of time and commitment. In most weeks there are two games for Varsity and JV football and basketball. We practice the other two nights so most of our time is spent towards preparing or performing," said cheerleading sponsor Ms. Julie Marcinke.

Once the football season begins, the cheerleaders strive to arouse spirit. As the year goes on, the football games get colder, but they keep

on cheering. Junior Danielle Dudek said, "The cold weather doesn't bother me because in the games I am constantly jumping around and cheering for the team."

Junior Kelley Gall said, "Cheering is better moreso in football than in basketball because we seem to do a lot more for the players."

By attending all games, including the away games, the girls feel that they are part of the team. Cheering a team onto a victory or loss is as emotional for cheerleaders as it is for the team. "I remember the football game against Dwenger. The crowd was so into it and I had never seen such an emotional game," said sophomore Holly Huddleston.

by Dedra Rutherford

(J. Littlefield)

I'm glad that I did so well in my last year of track at GHS."

Senior
Jim Lattin

The track team accomplished many titles for the

Track and Field

year in Conference, Sectionals, Regionals, and State

Track is a sport of many sports. There are events that involve doing things such as running, jumping, and throwing. That is just what the mighty Boys Track team did at Griffith High School.

Like always, the track team began conditioning a few weeks prior to the first meet. Preparing involves stretching, warming up, and plenty of running in order to improve.

The team did have new additional members, which helped during events running events such as the hurdles and relay teams. Also, a record was set in the High Jump Event by sophomore Chad Sutton.

After the meets started, the team began their short season with

AIDS Doesn't make Johnson afraid

Mouths gaped open and tears fell as 32 year old Earvin "Magic" Johnson, star of the Los Angeles Lakers announced that he was retiring from basketball because he contracted the HIV Virus, a virus that causes AIDS.

Johnson admitted to contracting the disease through unprotected sex.

Johnson's physician, Dr. Michael Mellman recommended that Johnson not play professional basketball, or participate in the 1992 Olympics because of the intense level of physical activity both would require. Johnson had been chosen for the United States Olympic Basketball Team that will be held in Madrid, Spain.

Johnson found out about the disease through tests for a life insurance policy. Johnson's wife, Earleatha "Cookie" Kelly tested negative for the virus. Even though she was pregnant, the fetus was not in any danger.

Magic received a lot of support from teammate, James Worthy and friends Mark Aguirre and Isiah Thomas of the Detroit Pistons and Michael Jordan of the Chicago Bulls.

Devoted fans watched his press conference in awe, hoping that what he was saying and what they were hearing wasn't true. In some people's opinions, whether they are devoted Bulls fans or not even concerned basketball fans, feel it was his own fault that led to his misfortune. Some Griffith students stated their opinions:

"I don't think he should be allowed to play in the U.S. Olympic Team because that was just for the players who did well during the year, and he didn't play at all." Senior Chris Logan.

"It was bad for the sport of basketball, but it was good for the awareness of the public because he was a hero to some people. It just let people know that AIDS is out there and there are things you can do to prevent it." Senior Roger Helfen.

"I have no sympathy for him because he knew the dangers of sexually transmitted diseases in his promiscuous way of life." Senior Allison Kundrot.

Neil Miklusak Makes It Big (10)

Hard work finally paid off for senior Neil Miklusak, Tight end and Defensive end of the football team. In December, Miklusak was offered a 5 year scholarship to the University of Wisconsin.

Miklusak said, "I'm really excited about going to Wisconsin. It's a really cool campus. The people up there have set up a lot of programs that help athletes with their classes. I think that's important."

To keep the scholarship, players must sign an affidavit stating they went to every class, had no discipline problems, and kept a decent grade point average.

Sometimes after college football, comes professional football. Miklusak said, "I would only play professionally in my dreams. I think about it once in a while, like 'what if'. But after college, that will be all the ball I play."

Instead, Neil is considering a major in Sports Medicine.

Boxer Behind Bars

Mike Tyson, the world's highest-paid athlete and the youngest boxer to win the heavy-weight championship, was convicted of rape and two counts of criminal deviant conduct in an Indianapolis courtroom February.

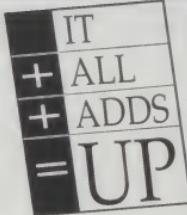

His victim, 18 year old Desiree Washington met Tyson during the Miss Black America beauty pageant last summer. She said Tyson, 25, raped her in room 606 of the Canterbury Hotel in Indianapolis.

Tyson's attorney Vincent Fuller tried to portray Washington as a "gold digger." During his opening argument, he pointed to the spectator section, to two lawyers hired by Washington's family to handle legal matters during the trial. If Tyson were convicted, Fuller charged, "they will file a big lawsuit, which stands to make Desiree Washington a wealthy woman."

The verdict dealt a fatal blow to Tyson's boxing career and cost Tyson \$15 million he would have earned for fighting Evander Holyfield.

Po' Bo Don't Play no mo'

Bo Jackson, star of the "Bo Knows" commercials had to retire from football and baseball because of a hip injury. Jackson, who played for both the Los Angeles Raiders and the Kansas City Royals was nailed in the hip during a football game. Jackson's hip never healed properly so he retired from the Raiders. Jackson could no longer run well, so the Royals eventually let him go. Last year the Chicago White Sox picked up Jackson as a designated hitter. Needless to say, Jackson didn't have a very good season and in April underwent a hip replacement surgery which led to his quitting the White Sox. With his sports career down the drain, Jackson has joined Ray Charles and supermodel Cindy Crawford as the new Pepsi spokespersons.

Congratulations

Kevin Harder
Congratulations and Best
Wishes. We're proud of
you. You're very special to
us. We love you.
Love Mom, Dad & Mark

To my "BABY GIRL"
...Korey!

Well kiddo, you did it!!
You've given me so many
years of being a proud
parent... a mom couldn't
have asked for more. I'm
always here. Love--Mom

Jen King:
Congratulations,
we're very proud of you.
You've been a joy and a blessing
in our lives. Best Wishes
as you pursue your life
dreams.
Love, Dad, Mom & Ed

Trisha Verhas
Congratulations!
Good Luck in your future,
in whatever you decide to do.
Love--Dad, Mom, Nancy,
Ted, Bobby

Dear Andy "54"

You have had a wonderful career as a GHS Panther. Congratulations on becoming a Franklin College Grizzly. "The best is yet to be." You will be the best. You have made us very proud. Love Mom & Dad

Gina Vittorio

What is a Gina?
A daughter, sister, and friend
To be proud of, and to Love...
with all our hearts,
Mom, Herald, Angela,
Nick & Phebe

CLASS OF 92

CLASS OF 92

CLASS OF 92

Seniors!!!

Kellie

We watched you grow from a little girl with braces and ponytail, to a lovely young lady. You can never imagine how proud you make our family. You're the best daughter anyone could ask for. Congratulations, we're certain you'll be a wonderful nurse.

Love--Mom, Dad, John & Jim

Jerry Murdock

May your life be filled with good health, happiness, and success. We're proud of you and love you.

Mom, Dad & Pat

Kevin Kozuch,

"... only those who dare to dream can make a dream come true."

We are very proud of you, Kevin, and our love will be with you wherever you go.
Mom, Sarah, Dad, Jill & Jon

Sherry

May you always believe in the very special abilities our God, Lord Jesus, has created within you.

May he keep you and bless you forever.

CHICAGO here she comes!
Congratulations, we are very proud of you.

Love Dad, Mom and sis

Buffy Bell:

We are so proud of you. You've given us so many special gifts through out the years. We're so happy you've began to realize some of the "special" gifts that God has given you to help you confidently walk into adulthood.

Congratulations Princess!!
We love you,
Mom, Mike and Jamie
"1992 Grad"

Denise,

Thanks for 18 years of joy. You have given us a new outlook on life more than once with your love for people, your enthusiasm, laughter and fun loving nature. You are a vital part of our family, and we are so proud of you at this important time in your life. Congratulations! We all love you so much.

Mom, Dad, Danette and Jeff

CLASS OF 92

CLASS OF 92

CLASS OF 92

GOOD LUCK

Mike Serratore,

Congratulations on your graduation from G.H.S! Good Luck at St. Joseph's College!

Love, Dad, Mom, Matt, Tom & Susan

Rick Burks,

Congratulations to a great son-GOOD LUCK at Grand Valley State University.
Study hard!

Love,
Mom, Dad & Jeff

Tomisha-

Congratulations to our little Mish-Mish! It still works!

Love,

Mommy, Daddy
& Boogie Bear

Angela Skaggs,

Congratulations! O-liv is so happy you've made it!! I have to admit, I worried when I saw 19 girls constantly hanging out of the "Black Bomb." Was anyone ever doing homework?

You have grown into a lovely young woman. I burst with pride when I see the compassion you have for the elderly. That is a trait rare in youth.

It is a hard world out there, but your strength and compassion will carry you throughout your life. Reach for the stars!

Love You,
Mom

Troy Murphy

Congratulations Troy! We are proud of you! May God bless you!

Love,
Mom, Dad,
Ben & Matt

Rick Jerome #68,

Congratulations Rick!
We're very proud of all
you've accomplished.
Thanks for the exciting
football season.

Love,
Mom,Dad
& Brian

Troy Castile,

You are truly a blessing from the Lord. I am so proud if you in all areas of your life. Congratulations on your excellence award and your scholarship. May God bless you in your future.

Love you,
Mom and family

SENIORS!

Denise Castillo,

As you near the end of your high school years, we can beam with pride and marvel at all you've accomplished through your first 18 years of life. We know that no matter what you attempt to do you will will excel in it. We are very proud of you and we love you very much.

Love, Mom & Dad

Jill Littlefield,

Graduation is a time to remember all your accomplished and all the fun experience: You met all your challenge with determination and you reached your goals. Just remember you are already a success because of who you are, and you deserve to succeed in whatever you do. Love Dad & Mom

Julie Ellison,

Yes you tried our patience.
Yes you made us sigh
Yes you made us laugh red hard.
Yes you made us cry
Yes you are very stubborn
and you won't give up a fight
Yes your room is cream-corn
and you always think you're right
But there is something you don't know
as real as is true
The reason we're so full of pride...
...is just because you're you.

Love,

Dad, Mom, Katie, & Fred

Jennifer:

The day you were born we knew you were special. You've worked hard to prove yourself and we're all very proud. CONGRATULATIONS

Jason Young,

You don't know how very proud we are of you. You deserve nothing but the best in life . You're off to a good start son.

With lots of love,
Dad & Mom

Jenni Cebulski,

Congratulations! You've made us so proud of you throughout your school years in everything you have accomplished (which is more than we ever dreamed of) Thanks for 18 wonderful years. May God bless & keep you safe.

Love,
Mom, Dad & Boo Boo#2

Angela Piekarzyk,

Congratulations Graduate! We can hardly believe it's time. The years went by so fast. We are proud of you!

Way to go Cool Willie!!!!!!!

Love,
Dad, Mom, Bill,
Amber and Heather

Mr. Donald Ray

Don was a relevant teacher who brought government into the classroom," said Mr. Frank Hanak, the First vice President of the Griffith School Board.

On Monday, March 30, Griffith High School suffered a great loss when Mr. Donald Ray passed away at home after a long battle with cancer.

Mr. Ray came to the Griffith School System in 1962. While he was at GHS he also taught geography at Indiana University Northwest. During his years at GHS he was involved in many extracurricular activities. He had been the sponsor for the Geography Club and the Academic Coach for the Social Studies branch of the academic teams.

Mr. Ray had also been involved with the Athletic Department. He was the official scorekeeper

for the basketball team for 23 years, the official time keeper for the football team for 20 years, and he coached the junior high boys basketball team.

Mr. Ray was the teacher sponsor of local students in the Rotary World Affairs Conference. He participated in the National Endowment for the Humanities Workshop, Indiana Historical Bureau, Jefferson Meeting on the Indiana Constitution Workshop. He was the Congressional District Coordinator for the Bicentennial Competition, the State Coordinator for the National Geographic Bee and the Chairman of Griffith HS Performance-Based Accreditation Committee, and a member of the National Council of Social Studies.

Mr. Ray also traveled to Germany to study government on the Germany Marshall Teachers Exchange Program.

His dedication and hard work as a teacher was finally recognized in 1991 when the Daughters of the American Revolution presented him with the "History Teacher of the Year Award."

His name was read in the official Congressional Records by Congressman Pete Visclosky for his work in government and the Bicentennial Competition.

GHS loses teacher, friend

If I said this year went by smoothly, I'd be lying. In the beginning of the year everything went great; deadlines were met and everyone got along. As the year progressed, things went downhill. Assignments were turned in a little late and we began to argue. But even though we had our problems, we never let it affect the quality of the *Reflector*.

Everything in this book was done on 3 Macintosh

computers. The stories are in 10 point New Century Schoolbook and the captions are in 9 point. The headlines are in different point sizes and different types because of freehand. This yearbook is a special one because it is the last one that will be produced in the infamous J-room. I know there will be a new J-room, but it won't be the same.

Before I finish, I would like to give thanks to the people that deserve the

Tomisha Joseph
Editor-in-Chief

ing in their assignments on time and never (well, almost never!) complaining about a deadline. Thanks to Diana and Dreda for placing their own stories and doing their own headlines and captions. It really helped a lot!!! Thank you Danielle Dudek and Chris Fisher for helping out with the pictures. You guys were there for me when someone else let me down. Finally I want to give an EXTRA thanks to

Jackie Acosta and Miss Marcinek. They really helped out when other people quit on me. They probably didn't expect to spend part of their summer in the J-room. Thanks again Jacks and Mar!

I want to say "Good Luck" next year to Miss Marcinek, we all wish her the best in Crown Point and to Jackie, the new Editor-in-Chief. I know you'll do a great job!!

We did it all . . .

AS THE YEAR CAME TO A CLOSE, THE SENIORS PREPARED FOR COLLEGE WHILE THE JUNIORS AND SOPHOMORES PLANNED OUT THE NEXT YEAR'S SCHEDULE OF CLASSES. FRIENDS, STUDENTS, AND TEACHERS SAID THEIR GOODBYES TO EACH OTHER AND THE 1991-92 SCHOOL YEAR. LOOKING BACK, THERE WERE MANY SPORTS AND ACADEMIC ACCOMPLISHMENTS MAKING NEW RECORDS IN THE SCHOOL'S HISTORY.

THE FOOTBALL AND WRESTLING TEAM CONQUERED A REGIONAL WIN FOR THE FIRST TIME. ALSO, MANY OTHER SPORTS TEAMS MADE IMPROVEMENTS AS A TEAM.

THE ACADEMIC TEAMS PROGRESSED AS THE ENGLISH ACADEMIC TEAM WENT DOWN STATE FOR A COMPETITION. ALL IN ALL, EVERY TEACHER AND STUDENT GOT IT . . . TOGETHER.

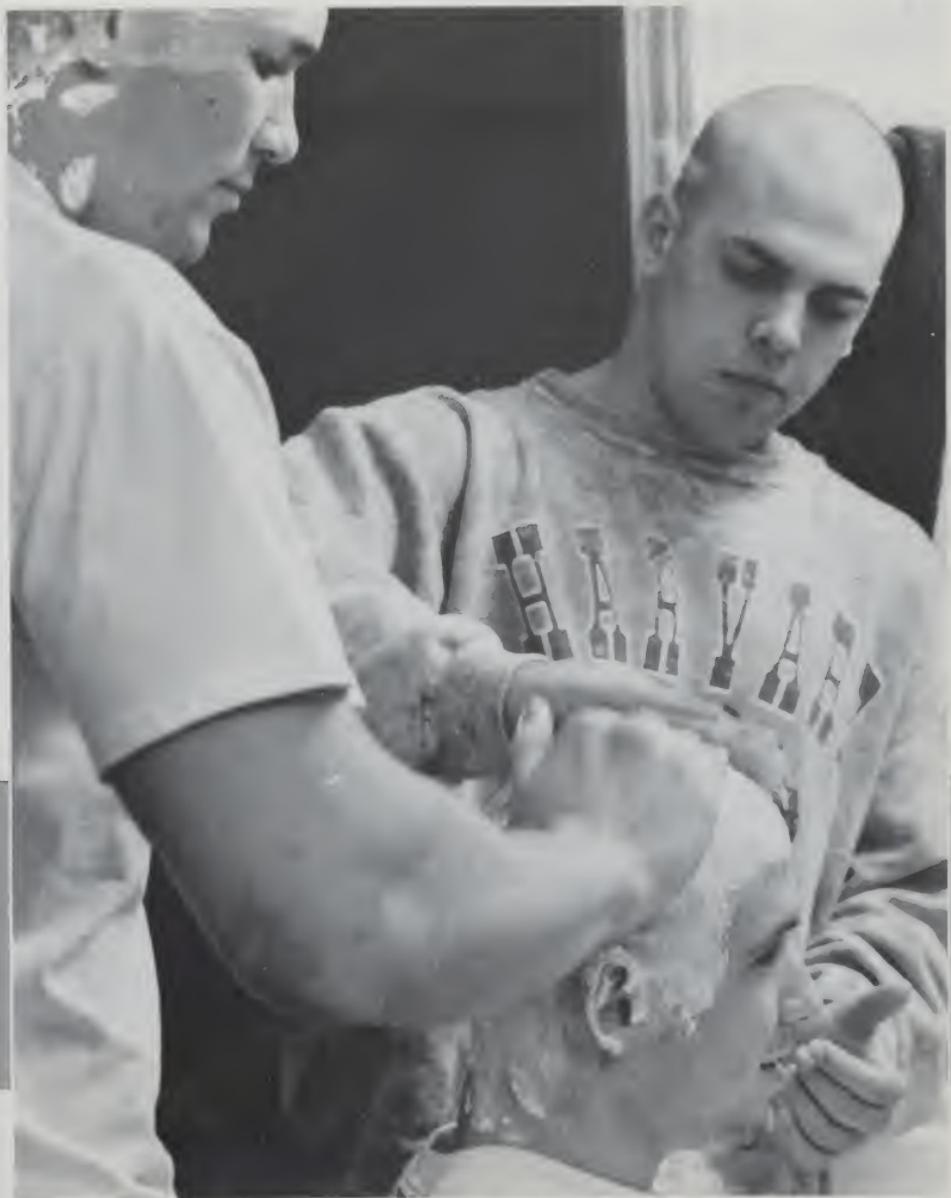

In an attempt to get it together during a heated game, Head Coach Les Thornton grabs Coach Jim Anderson to get suggestions for what play to call. Information is relayed from a coach in the press box via the headphones.

Left: Senior Neil Miklusak makes a dress out of toilet paper for senior Denise Castillo as a Homecoming Court event on Activities Night. Above: Seniors Mike Toth, Mike Garvey and Kevin Kozuch support Highland wall of the Senior Homecoming float as other seniors secure it in place. Right: Seniors Rick Burks, and Rick Jerome smear shaving cream on senior Todd Leslie's head in order to shave it.
